Understanding Teaching Continuity Chan:

Crossing Borders in East Asian Higher Education David W. Chapman, William K. Cummings, Gerard A.

Postiglione, 2010-11-18 This book examines issues that have emerged as higher education systems and individual institutions across East Asia confront and adapt to the changing economic social and educational environments in which they now operate The book's focus is on how higher education systems learn from each other and on the ways in which they collaborate to address new challenges The sub theme that runs through this volume concerns the changing nature of cross border sharing In particular the provision of technical assistance by more industrialized countries to lower and middle income countries has given way to collaborations that place the latter's participating institutions on a more equal footing

Buddhist Theology Roger Jackson, John Makransky, 2013-12-16 Scholars of Buddhism themselves Buddhist here seek to apply the critical tools of the academy to reassess the truth and transformative value of their tradition in its relevance to the contemporary world

Reimagining Chan Buddhism Jimmy Yu, 2021-11-14 This book is the first socio intellectual history of the Dharma Drum Lineage of Chan Zen a new lineage of Buddhism founded by the late Chinese Buddhist cleric Sheng Yen 1931-2009 arguably one of the most influential Chan masters in contemporary times The book challenges the received academic and popular image of Chan Buddhism as a meditation school that bypasses scriptural learning Using Sheng Yen's doctrinal classification Chn panjiao chart as an example the book shows Sheng Yen's Chan as a synthesis of both Indian and Chinese premodern forms of Buddhism and as the summum bonum of Han transmission of Chinese Buddhism Chn Hanchuan fojiao The book demonstrates how Sheng Yen's presentation of Chan was intimately related to the volatile social and political realities of his life the Communist takeover of China and the subsequent industrial boom that impacted Taiwanese society In short this book presents a historically and culturally embodied approach to the formation of Buddhist doctrine and practice Drawing on the works of postcolonial theories that integrate the role of the researcher into the research the book also offers a more integrated approach between emic and etic insider and outsider perspectives to research Advancing the field of Buddhist studies the book will be of interest to scholars of Buddhism in the modern period twentieth century religious history of China and Taiwan Chan Zen studies World Religions Asian civilizations and Modern Biographies

Confucian Pragmatism as the Art of Contextualizing Personal Experience and World Haiming Wen,2009-04-16 This engaging work of comparative
 philosophy brings together American pragmatism and Chinese philosophy in a way that generates new interpretations of
 Chinese philosophy and a fresh perspective on issues in process philosophy Through an analysis of key terms Haiming Wen
 argues that Chinese philosophical terminology is not simply a retrospective language that through a process of stipulation
 promises us knowledge of an existing world but is also an open prospective vocabulary that through productive associations
 allows philosophers to realize a desired world Relying on this productive power of Chinese terminology Wen introduces a
 new term Confucian pragmatism Wen convincingly shows that although there is much that distinguishes American
 pragmatism from Confucian philosophy there is enough conceptual overlap to make Confucian pragmatism a viable and
 exciting field of study
