China's Encounter with Global Hollywood Wendy Su, 2016-05-13. In recent years the film industry in the People's Republic of China has found itself among the top three most prolific in the world. When the Chinese government introduced a new revenue sharing system in 1994 the nation's total movie output skyrocketed with gross box office receipts totaling billions of yuan. This newfound success however has been built on an alternately competitive and collaborative relationship between the ascendant global power of China and the popular culture juggernaut of America. In *China's Encounter with Global Hollywood* Wendy Su examines the intertwining relationships among the Chinese state global Hollywood and the Chinese film industry while analyzing the causes and consequences of the rapid growth of the nation's domestic film production. She demonstrates how the Chinese state has consolidated power by negotiating foreign interest in

the lucrative Chinese market while advancing its cultural industries Su also reveals how mainland Chinese and Hong Kong filmmakers have navigated the often incompatible requirements of marketization and state censorship This timely analysis demonstrates how China has cannily used global capital to modernize its own film industry and now stands poised to step clear of Hollywood's shadow The country's debates on and offscreen over cultural change market based economic reforms and artistic freedom illuminate China's ongoing efforts to build a modern national identity *Reading Culture* Phyllis Ghim Lian Chew, Anneliese Kramer-Dahl, 1999 As a broadly compatible socially motivated analysis this book understands and illustrates reading as a dynamic critical activity which investigates texts and textual representations in their social conditions seeing them in relation to their discursive origins The specific texts and discursive constructions it submits are based on Singapore Singapore life and its citizenry The collection of papers covers a wide range of disciplines most notably communication and media studies and provides a timely challenge to the long tradition of critical theory West equates
