Philip Ewell

Unearthing The Past:

Unearthing the Past Leonard Barkan, 1999-01-01 The rediscovery of some of the most famous artworks of all time statues lying underground beneath Rome launched a thrilling archaeological adventure in the 15th century In this remarkable book Barkan probes the impact of these magnificent finds on Renaissance consciousness 206 illustrations

Uncovering the Past William H. Stiebing, 1993-02 Traces the study of ancient materials culture from its beginnings as a hobby for Renaissance scholars to today's sophisticated modern discipline

On Music Theory, and Making Music More Welcoming for Everyone Philip Ewell, 2026-01-12 Since its inception in the mid twentieth century American music theory has been framed and taught almost exclusively by white men As a result whiteness and maleness are woven into the fabric of the field and BIPOC music theorists face enormous hurdles due to their racial identities In *On Music Theory* Philip Ewell brings together autobiography music theory and history and theory and history of race in the United States to offer a black perspective on the state of music theory and to confront the field's white supremacist roots Over the course of the book Ewell undertakes a textbook analysis to unpack the mythologies of whiteness and westernness with respect to music theory and gives for the first time his perspective on the controversy surrounding the publication of volume 12 of the *Journal of Schenkerian Studies* He speaks directly about the antiblackness of music theory and the antisemitism of classical music writ large and concludes by offering suggestions about how we move forward Taking an explicitly antiracist approach to music theory with this book Ewell begins to create a space in which those who have been marginalized in music theory can thrive

Imitating Authors Colin Burrow, 2019-05-16 *Imitating Authors* is a major study of the theory and practice of imitation the imitation of one author by another from antiquity to the present day It extends from early Greek texts right up to recent fictions about clones and artificial humans and illuminates both the theory and practice of imitation At its centre lie the imitating authors of the English Renaissance including Ben Jonson and the most imitated imitator of them all John Milton *Imitating Authors* argues that imitation was not simply a matter of borrowing words or of alluding to an earlier author Imitators learnt practices from earlier writers They imitated the structures and forms of earlier writing in ways that enabled them to create a new style which itself could be imitated That made imitation an engine of literary change *Imitating Authors* also shows how the metaphors used by theorists to explain this complex practice fed into works which were themselves imitations and how those metaphors have come to influence present day anxieties about imitation human beings and artificial forms of intelligence It explores relationships between imitation and authorial style its fraught connections with plagiarism and how emerging ideas of genius and intellectual property changed how imitation was practised In refreshing and jargon free prose Burrow explains not just what imitation was in the past but how it influences the present and what it could be in the future *Imitating Authors* includes detailed discussion of Plato Roman rhetorical theory Virgil Lucretius Petrarch Cervantes Ben Jonson Milton Pope Wordsworth Mary Shelley and Kazuo Ishiguro
