The United Nations Security Council in Libya Christian Graf, 2014-08-14 Seminar paper from the year 2014 in the subject Politics Topic Peace and Conflict Security grade 1 3 University of Bamberg language English abstract The United Nations UN in international relations is considered to be a supranational organization Currently the UN consist of 193 Member States and it stresses out four main purposes which are maintaining peace and security developing friendly relations amongst states helping states to work together and being a centre for harmonizing the actions of nations cf www.un.org/en/aboutun Additionally the UN is seen as a collective security system which offers states to settle down any disputes and for solving social economic humanitarian and ecological problems on international level cf Gareis Warwick 2006 85 According to this purposes the UN has acted and authorized multilateral interventions in many states which were affected by conflicts The Libyan conflict in 2011 as an example was one of the cases where the UN has responded to The actions and the multilateral intervention in Libya leaves questions How does the UN shape the behavior of its Member States and why does the UN act in general The theory of social constructivism by Alexander Wendt can provide an explanation to these questions The theory defines balances of power between states and explains the behavior of states Furthermore it claims that international relations are social and the international system is constituted by ideas cf Jackson Sorensen 2006 162 But the main question which shall be discussed in this term paper is therefore How can the theory of social constructivism explain the actions by the United Nations Security Council in Libya First of all core assumptions of social constructivism has to be discussed in order to explain further analysis of this term paper After the illustration of the core assumptions of social constructivism the powers and functions of the UN Security Council shall be described because the Security Council as one of the most important main body of the UN is the only executive body that act regarding any threat of peace and security Thereafter the situation in Libya as the empirical example have to be mentioned What exactly happened in Libya and what did the UN especially the Security Council do Altogether with the core assumptions of social constructivism the theoretical knowledge of the Security Council and the information of the Libyan conflict the main question shall be answered At the end the conclusion shall summarize the term paper s outcome of the analysis *The Future of the United Nations Secretariat* Richard N. Gardner, 1897 *United Nations Peacekeeping and the Politics of Authoritarianism* Sarah von Billerbeck, Birte Julia Gippert, Kseniya Oksamytna, Oisín Tansey, 2025-01-11 What impact does UN peacekeeping have on the politics of authoritarianism in host countries This book advances a theoretically innovative and empirically rich answer to this question while the UN does not intentionally promote authoritarianism it faces a number of constraints and dilemmas that give rise to

what we call authoritarian enabling Enabling can occur through two mechanisms capacity building and the creation of a permissive environment which enhance the ability of host governments to engage in authoritarian behavior and signal to them that doing so is low cost This book illustrates these two mechanisms with four in depth case studies of UN peacekeeping operations UNTAC in Cambodia MONUC MONUSCO in the Democratic Republic of Congo MINUSTAH in Haiti and UNMIL in Liberia The analysis is based on primary interview data from over 200 interviews The authors explore the sources of enabling identifying the trade offs and contradictions that give rise to these two mechanisms They include respect for sovereignty the importance of working relations with the host government the tension between democracy and other mission goals the pressure to demonstrate quick results and divergences within missions and the broader international community While enabling stops short of the outright promotion of authoritarianism it explains why the UN s activities often appear to contradict its stated objectives and the outcomes it delivers fall short of its goals In addition to its theoretical and empirical contributions the book suggests how these dilemmas and challenges can be overcome
