Veterinary Reproductive Ultrasonography Wolfgang Kähn, Dietrich Volkmann, 2004-03-22 A guide to the reproductive problems facing the busy veterinary practitioner in every day practice The pregnant and non pregnant uterus as well as pathologic changes of the reproductive system are described and explained The book is superbly illustrated and covers all the important domestic large and small animals dogs cats horses cows sheep goats and pigs *Diagnostic Ultrasound and Animal Reproduction* M.A.M. Taverne, A.H. Willemse, 2013-06-29 The use of ultrasonic imaging techniques for diagnostic purposes in veterinary medicine and animal science has lagged far behind their use in human medicine In the area of domestic animal reproduction diagnostic ultrasonography has a relatively short history Reports on B mode scanning first appeared as late as 1969 when Stouffer and co workers used it for counting foetal numbers in late gestation sheep After Lindahl had re evaluated the potential of two dimensional ultrasonography for pregnancy diagnosis in sheep in 1976 results of the first large scale field trials by Fowler and Wilkins on predicting foetal numbers during the first half of gestation in sheep were published as recently as 1980 In this year also the first paper by Palmer and co workers on ultrasonic scanning of the uterus and ovaries in the mare appeared The improvement of diagnostics which was achieved by the application of this technique is illustrated by its present routine use in clinical equine practice and sheep breeding Besides offering an accurate early pregnancy diagnosis in species such as the horse cow sheep goat pig and dog ultrasonography enables the visualization of ovarian and uterine structures for the identification of both physiological and pathological conditions In this way it replaces or supplements the more common diagnostic techniques used by the general practitioner so far Ultrasonography has also opened several new lines of research for clinicians and research workers **Equine Reproductive Ultrasonography** A.
