Victorian Multiplot Novel:

The Victorian multi-plot novel Peter K. Garrett,1980 **The Multiplot Novel and the Dynamics of the Victorian Social Order** Criscillia Ann Benford,2004 To Kill a Text Ilinca Sarifopol-Johnston,1995 Ilinca Zarifopol Johnston s book traces the covert manifestations of Hugo s romantic notion of the novel through later French and English realism arguing that the anachronistic traces of past literary periods are always at work defining the aims of the present no matter how radical a new departure it seems or tries to be **The Family Novel in Russia and England, 1800-1880** Anna A. Berman,2022 An in depth comparative analysis of the family novel as it developed as a genre in Russia and England during the course of the nineteenth century A Natural History of the Romance Novel Pamela Regis,2003 The romance novel has the strange distinction of being the most popular but least respected of literary genres While it remains consistently dominant in bookstores and on best seller lists it is also widely dismissed by the critical community Scholars have alleged that romance novels help create subservient readers who are largely women by confining heroines to stories that ignore issues other than love and marriage Pamela Regis argues that such critical studies fail to take into consideration the personal choice of readers offer any true definition of the romance novel or discuss the nature and scope of the genre Presenting the counterclaim that the romance novel does not enslave women but on the contrary is about celebrating freedom and joy Regis offers a definition that provides critics with an expanded vocabulary for discussing a genre that is both classic and contemporary sexy and entertaining Taking the stance that the popular romance novel is a work of literature with a brilliant pedigree Regis asserts that it is also a very old stable form She traces the literary history of the romance novel from canonical works such as Richardson s Pamela through Austen s Pride and Prejudice Bront s Jane Eyre and E M Hull s The Sheik and then turns to more contemporary works such as the novels of Georgette Heyer Mary Stewart Janet Dailey Jayne Ann Krentz and Nora Roberts *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk,1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and

explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

He Knew She was Right Jane Nardin, 1989 Trollope's mother wife and a friend he loved platonically most of his life provided him three very different views of the Victorian woman And according to Jane Nardin they were responsible for the dramatic shift in his treatment of women in his novels This is the first book in Sandra Gilbert's *Ad Feminam* series to examine a male author Nardin initially analyzes the novels Trollope wrote from 1855 to 1861 in which male concerns are central to the plot and women are angelic heroines submissive and self sacrificing Even the titles of his novels written during this period are totally male oriented *The Three Clerks* *Doctor Thorne* and *The Bertrams* all refer to men Shortly after meeting Kate Field Trollope wrote *Orley Farm* which refers to the estate an angry woman steals from her husband and which marks a change in the attitudes toward women evident in his novels His next four books *The Small House at Allington* *Rachel Ray* *Can You Forgive Her* and *Miss Mackenzie* prove that women's concerns had become central in his writing Nardin examines specific novels written from 1861 to 1865 in which Trollope with increasing vigor subverts the conventional notions of gender that his earlier novels had endorsed Nardin argues that his novels written after 1865 and often recognized as feminist are not really departures but merely refinements of attitudes Trollope exhibited in earlier works

Constructing Coherence in the British Short Story Cycle Patrick Gill, Florian Kläger, 2018-05-11 The first major collection of essays on the contemporary British short story cycle this volume offers in depth explorations of the genre by comparing its strategies for creating coherence with those of the novel and the short story collection inquiring after the ties that bind individual short stories into a cycle A section on theory approaches the form from the point of view of genre theory cognitive literary studies and book studies It is followed by investigations of hitherto neglected aspects of the generic tradition of the British short story cycle and how they relate to the contemporary outlook of the form Readings of individual contemporary cycles illustrating the form's multifaceted uses from the presentation of sexual identities to politics and trauma make up the third and most substantial part of the volume placing its focus squarely on the past decades Unique in its combination of a focus on the literary traditions politics and markets of the UK with a thorough examination of the genre's manifold formal and thematic potentials the volume explores what is at the heart of the short story cycle as a literary form the constant negotiation between unity and separateness collective and individual of coherence and autonomy

Imagining Otherwise Debra Gettelman, 2024-08-13 How Victorian authors engaged the imaginations of their readers and elevated the novel to new heights As novel publication exploded in nineteenth century Britain writers such as Jane Austen Charles Dickens and George Eliot learned from experience sometimes grudgingly that readers tend to make their own imaginative contributions to fictional worlds *Imagining Otherwise* shows how Victorian writers acknowledged grappled with and ultimately enlisted the prerogative of readers to conjure alternatives and add depth to the words on the

page Debra Gettelman provides incisive new readings of novels such as *Sense and Sensibility*, *Little Dorrit* and *Middlemarch* exploring how novelists known for prescriptive and didactic narrative voices were at the same time exploring the aesthetic potential for the reader's independent imagination to lend nuance and authenticity to fiction. Modernist authors of the twentieth century have long been considered pioneers in cultivating the reader's capacity to imagine what is not said as part of the art of fiction. Gettelman uncovers the roots of this tradition of novel reading a century earlier and challenges literary criticism that dismisses this spontaneous readerly impulse as being unworthy of serious examination. As readers demand novels with relatable characters and fan fiction grows in popularity, the reader's imagination has become a determining element of today's literary environment. *Imagining Otherwise* takes a deeper look at this history offering a critical perspective on how we came to view fiction as a site of imaginative appropriation.

Network Aesthetics Patrick Jagoda, 2016-03-22
The term network is now applied to everything from the Internet to terrorist cell systems. But the word's ubiquity has also made it a cliché, a concept at once recognizable yet hard to explain. *Network Aesthetics* explores how popular culture mediates our experience with interconnected life, revealing the network's role as a way for people to construct and manage their world and their view of themselves. Each chapter considers how popular media and artistic forms make sense of decentralized network metaphors and infrastructures. Patrick Jagoda first examines narratives from the 1990s and 2000s including the novel *Underworld*, the film *Syriana*, and the television series *The Wire*, all of which play with network forms to promote reflection on domestic crisis and imperial decline in contemporary America. Jagoda then looks at digital media that are interactive, nonlinear, and dependent on connected audiences to show how recent approaches such as those in the videogame *Journey* open up space for participatory and improvisational thought. Contributing to fields as diverse as literary criticism, digital studies, media theory, and American studies, *Network Aesthetics* brilliantly demonstrates that in today's world, networks are something that can not only be known but also felt, inhabited, and crucially transformed.

George Eliot and the Conventions of Popular Women's Fiction Susan Rowland Tush, 1993
This work uses George Eliot's essay *Silly Novels by Lady Novelists* as a guide for examining Eliot's response to the literary conventions prevalent in Victorian women's fiction. In her essay, Eliot refers to six popular novels which are now extremely rare. This work

is the first to examine these novels and the role that their conventions play in Eliot's own fiction. Accordingly, *Adam Bede* is seen within the context of Evangelical fiction. *The Mill on the Floss* is viewed as a oracular novel and *Middlemarch* is compared to the mind and millinery novels. Eliot's essay and silly novels she discussed thus provide a new way of measuring her fiction by her own yardstick.

The Regulation of Consciousness in the English Novel Owen Schur, 2002. Examining novels he considers representative of the English tradition from Austen to Woolf. Schur, English Seton Hall U, explores their representations of desire, power, and consciousness. He follows Lacan but emphasizes the social more than the psychoanalytic, particularly looking at the intrusiveness of social power on individual subjectivity in the narratives. He finds that all the novels examine hierarchies of power in the social practices and social institutions by which and in which the protagonists live and that these practices and institutions regulate human desire and consciousness, especially through patriarchal power.
