distinctive form of ethnography      **The Sage Encyclopedia of Qualitative Research Methods: A-L ; Vol. 2, M-Z Index**

Christine Hine,2015-01-29 The internet has become embedded into our daily lives no longer an esoteric phenomenon but  
instead an unremarkable way of carrying out our interactions with one another Online and offline are interwoven in everyday  
experience Using the internet has become accepted as a way of being present in the world rather than a means of accessing  
some discrete virtual domain Ethnographers of these contemporary Internet infused societies consequently find themselves  
facing serious methodological dilemmas where should they go what should they do there and how can they acquire robust  
knowledge about what people do in through and with the internet This book presents an overview of the challenges faced by  
ethnographers who wish to understand activities that involve the internet Suitable for both new and experienced  
ethnographers it explores both methodological principles and practical strategies for coming to terms with the definition of  
field sites the connections between online and offline and the changing nature of embodied experience Examples are drawn  
from a wide range of settings including ethnographies of scientific institutions television social media and locally based gift  
giving networks      Esprit I3 Workshop on Ethnographic Studies in Real and Virtual Communities K. Buckner,1999  
**Massively Multiplayer Online Game Virtual Environments** Landon Kenneth Pirius,2007      *Ethnographic Discourse*  
*of the Other* Panchanan Mohanty,Ramesh C. Malik,Esvarappa Kasi,2008 This book primarily tries to bring out the analogy  
between the conceptual and methodological discourses on the theme of the other The term Other here refers to the  
oppressed sections of the society It may be dalits women indigenous or ethnic communities Since we are living in a  
multicultural and multilingual society we should share our views with others on a platform where issues of the marginalized  
people are addressed by different scholars following different methods and techniques Though there are various policies and  
plans for the welfare of the downtrodden hardly any change can be seen at the micro level structure of the society There are  
studies which highlighted the problems and ethos of the downtrodden sections but a majority of those studies neglected the  
marginalized groups Hence we felt the need to highlight the issues and concerns of these groups in a wider context and  
started thinking on the theme Ethnographic Discourse of the Other Conceptual and Methodological Issues This volume  
attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary  
societies in South Asia This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology  
Sociology Linguistics Social Work Culture Studies Gender Studies and Philosophy It is widely applicable to all sections of the  
oppressed socially economically culturally academically politically and other wise      *Ethnologia Bulgarica* ,2006      **Virtual**
