## Virtual Realities Trilogy:

Virtual Realities Trilogy Claire Carmichael, 1997      Virtual Images Lars C. Grabbe, Patrick Rupert-Kruse, Norbert M. Schmitz, 2021-12-08 Common boundaries between the physical reality and rising digital media technologies are fading The age of hyper reality becomes an age of hyper aesthetics Immersive media as well as image technologies like virtual reality enable a completely novel form of interaction and corporeal relation to and with the virtual image structures VR Images contributes to the wide range of the hyper aesthetic image discourse to connect the concept of dynamic virtual images with the approaches in modern media theory philosophy perceptual theory aesthetics computer graphics art history and techno art as well as the complex range of image science Shared goal is a critical discussion of the specific epistemology of aesthetic and scientific approaches to VR This volume discusses the relation of images and technological evolution in the context of virtual reality within the perspective of an autonomous image science      *Virtual Realities* Claire Carmichael, 1992 Fantasy horror story for adolescents that explores virtual reality computer technology in which the line between imagination and reality becomes blurred It has a cliff hanger ending and is the first of a trilogy the others novels being *TCybersaur* 1993 and *TWorldwarp* 1994 By the author of *TThe Mystery of the Haunted Dog* and the *TMystery of the Alien Spacecraft*      *An Artistic Approach to Virtual Reality* Cyane Tornatzky, Brendan Kelley, 2023-10-25 A special quality about the medium of virtual reality is its immersive nature allowing users to disengage from the physical world around them in order to fully interact with a digital environment *An Artistic Approach to Virtual Reality* traces the lineage of artist technologists who have worked with virtual reality in its infancy to the interactive virtual work of contemporary artists such as Laurie Anderson Interlaced within a survey of artists whose works fit in the boundary of the interactive virtual medium this book teases out what qualifies as interactive virtual artworks The authors discuss the theories behind basic mechanics required to enter the virtual reality space and investigate theories around visual and embodied conceptual space Key Features Explores theoretical and practical aspects of using virtual reality for artistic practice Includes examples and discussion of virtual reality artworks from award winning artists Discusses topics relevant to virtual reality that are pertinent and persist throughout hardware and software changes Provides historical and contemporary discussion of virtual reality artistic works      **Playing the Waves** Jan Simons, 2007 *Dogma 95* the avant garde filmmaking movement founded by the Danish director Lars von Trier and three of his fellow directors was launched in 1995 at an elite cinema conference in Paris when von Trier was called upon to speak about the future of film but instead showered the audience with pamphlets announcing the new movement and its manifesto A refreshingly original critical commentary on the director and his practice *Playing the Waves* is a paramount addition to one of new media s most provocative genres games and gaming *Playing the Waves* cleverly puns on the title of one of von Trier s most famous features and argues that *Dogma 95* like much of the director s low budget realist productions is a game that takes cinema beyond the traditional confines of film aesthetics and dramatic rules Simons articulates the ways

in which von Trier redefines the practice of filmmaking as a rule bound activity and stipulates the forms and structures of games von Trier brings to bear on his films as well as the sobering lessons he draws from economic and evolutionary game theory Much like the director s films this fascinating volume takes the traditional point of view of film theory and film aesthetics to the next level and demonstrates we have much to learn from the perspective of game studies and game theory
