Virtual Storytelling. Using Virtual Reality Technologies for Storytelling Olivier Balet, Gerard Subsol, Patrice Torguet, 2003-06-30 The story is the richest heritage of human civilizations One can imagine the first stories being told several thousand centuries ago by wise old men huddled around campfires Since this time the narrative process has been considerably developed and enriched sounds and music have been added to complement the speech while scenery and theatrical sets have been created to enhance the story environment Actors dancers and technicians have replaced the lone storyteller The story is no longer the sole preserve of oral narrative but can be realized in book theatrical dance or movie form Even the audience can extend up to several million individuals And yet in its many forms the story lies at the heart of one of the world's most important industries The advent of the digital era has enhanced and accelerated this evolution image synthesis digital special effects new Human Computer interfaces and the Internet allow one not only to realize more sophisticated narrative forms but also to create new concepts such as video gaming and virtual environments The art of storytelling is becoming evermore complex Virtual reality offers new tools to capture and to interactively modify the imaginary environment in ever more intuitive ways coupled with a maximum sensory feedback In fact virtual reality technologies offer enhanced and exciting production possibilities for the creation and non-linear manipulation in real time of almost any story form This has led to the new concept of Virtual Storytelling

Scenario Innovation Marjolein Asselt van, Jan Rotmans, D.S. Rothman, 2005-08-25 The Visions Project brought together a range of decision makers scientists and thinkers to collectively envision a Europe of the future in terms of sustainable development and this book is the result of their efforts Addressing a range of contentious questions from employment to the environment and approaching the issues from a wide variety of
