Visions The Remembering:

Visions Dennis Hart, 2001-01-20 What will it take for Mankind to break out of his endless cycle of war and destruction This cycle is repeated over and over again because of the way in which Man has chosen to view the world In this novel six characters with diverse backgrounds known as The Foundation set out to change this worldview First they must answer twelve of Mankind s oldest questions Questions that Man has struggled with for centuries that have shaped his current perspective During their quest for answers the characters journey into prior lives and different realms of consciousness which provides insight about their current paths as well as the evolutionary path of Mankind s group consciousness The characters investigate the questions using all available sources and focus on the similarities of the world s religions and philosophies rather than their differences With this perspective the answers they develop are unique yet consistent with enduring teachings and provide a complete coherent view of the truth
