The Category of the Person Michael Carrithers, Steven Collins, Steven Lukes, 1985-12-27 The concept that people have of themselves as a person is one of the most intimate notions that they hold Yet the way in which the category of the person is conceived varies over time and space In this volume anthropologists philosophers and historians examine the notion of the person in different cultures past and present Taking as their starting point a lecture on the person as a category of the human mind given by Marcel Mauss in 1938 the contributors critically assess Mauss s speculation that notions of the person rather than being primarily philosophical or psychological have a complex social and ideological origin Discussing societies ranging from ancient Greece India and China to modern Africa and Papua New Guinea they provide fascinating descriptions of how these different cultures define the person But they also raise deeper theoretical issues What is universally constant and what is culturally variable in people s thinking about the person How can these variations be explained Has there been a general

progressive development toward the modern Western view of the person What is distinctive about this How do one s notions of the person inform one s ability to comprehend alternative formulations These questions are of compelling interest for a wide range of anthropologists philosophers historians psychologists sociologists orientalists and classicists The book will appeal to any reader concerned with understanding one of the most fundamental aspects of human existence **Eastern and Western Conceptions of Human Rights** Sanja Ivic,2026-01-08 This book explores Western and non Western conceptions of human dignity and human rights in order to demonstrate the hermeneutical nature of the concepts of human dignity and human rights **The Handbook of Culture and Psychology** David Matsumoto,2001-09-20 This book provides a state of the art review of selected areas and topics in cross cultural psychology written by eminent figures in the field Each chapter not only reviews the latest research in its respective area but also goes further in integrating and synthesizing across areas The Handbook of Culture and Psychology is a unique and timely contribution that should serve as a valuable reference and guide for beginning researchers and scholars alike *Church Missionary Intelligencer and Record* ,1925 **China and the International Human Rights Regime** Rana Siu Inboden,2021-03-18 Prior to China s entry into the United Nations UN in 1971 there was fierce debate about its anticipated behavior and impact Proponents of Chinese membership argued that integration into the United Nations would ultimately change or civilize the People s Republic of China PRC while skeptics countered that the the UN is not going to serve as a reform school for Peking and that China was likely to attempt to alter the international system When Chinese Communist Party CCP leaders failed to challenge the existing global order and eventually adjusted their own priorities and goals to fit into it and even benefit from the prevailing international order its behavior alleviated concerns of destructive behavior Yet the larger question of China s longer term impact on and role in international regimes remains an open question Even if the PRC has not acted as a spoiler of the international system are there subtle yet significant ways that it has pursued change toward international regimes This question become more pressing and salient with China s ascendance and rising weight in global politics especially given indications that it is shedding its earlier status quo posture and shifting to a more assertive one As scholar Elizabeth Economy noted in a June 2018 speech PRC President Xi Jinping put the world on notice China has its own ideas about how the world should be run and is prepared as he put it to lead in the reform of global governance Scholars have begun grappling with **Anthropos** ,2001 Overland Monthly and Out West Magazine Bret Harte,1909 **Western Machinery and Steel World** ,1919 **JAC** ,2005 **Journal of the Royal African Society** Royal African Society,1928 *Language, Power, and Identity in the Lament Psalms of the Individual* Amy C.
