Carwardine's Guide to Whale Watching in North America Mark Carwardine,2017-08-24 No one ever says I can't remember if I've seen a whale. A close encounter with one of the most enigmatic and remarkable creatures on the planet is a life-changing experience. Commercial whale watching began in 1955 in California when a San Diego fisherman started taking people for a dollar a time to see Grey Whales migrating along the coast. Nowadays 13 million people go whale watching each year in 119 different countries around the world. The undisputed hotspot with more than half of all whale watchers is North America. Mark Carwardine's *Guide to Whale Watching in North America* is the second in a series aimed at the millions of cetacean addicts around the world. It includes some of the world's ultimate wildlife experiences: tickling friendly grey whales in Mexico's San Ignacio Lagoon; listening to a live concert of singing humpback whales in Hawaii; being surrounded by thousands of dolphins in Monterey Bay; kayaking with pods of Orca off Vancouver Island; snorkelling with Beluga in Hudson Bay; and many more. This book covers all of the main whale watching locations in the United States, Canada, and Mexico, rich with photography throughout. It also includes sections on how to watch whales, including everything from identification to interpreting behaviour, and a field guide section covering all the species that can be seen in North American waters. Mark Carwardine's guide is indispensable for all who love whales in North America and want to see them. Packed with useful information and top tips to help you get the most out of your trip, it includes a thorough account of whale watching opportunities in some of the world's hotspots, from Hawaii and Vancouver Island to the Gulf of Maine and Baja California, as well as detailed accounts of every cetacean species found in North America. Whether you want to watch Blue Whales in Monterey Bay, Killer Whales in the San Juan Islands, Narwhals in the high Arctic, or North Atlantic Right Whales in the Bay of Fundy, this is an ideal companion.

Whale-Watching on the Pacific Coast Stan Minasian,2024-05-07 Identify marine mammals on your whale watching trips and beach outings along the coast of the Pacific Ocean. Seeing a whale is an experience unlike any other. You wait, you hope, and when a beautiful creature breaks the ocean surface, the moment is as thrilling as it is unforgettable. Whether you're a tourist on vacation or a local resident on a day trip, keep this booklet close at hand. Written by environmental educator and Emmy Award-winning documentary film producer Stan Minasian, it features more than 20 species of whales, dolphins, and porpoises. When you spot a marine mammal in the Pacific Ocean, check this guide to identify it and learn more about it. The tabbed booklet is applicable to the coastal waters of California, Oregon, Washington, Canada, and Alaska. It provides a brief introduction to cetaceans, marine mammals, and outlines what to expect when watching whales from land or while on a cruise. The guide also presents the best land-based locations for whale watching, organized by state. The pocket-size format is much easier to use than laminated foldouts, and the tear-resistant pages help to make the spiral-bound book durable in the field. As an added bonus, the guide introduces present-day threats to whales and discusses US laws that help to protect whales, including the Marine Mammals Protection Act. The booklet documents specific requirements that whale watching vessels must adhere to, like how far away they must remain from

various whale species and it even outlines details about a phone hotline and a smartphone app that you can access if you spot a whale in trouble Book Features Pocket size format easier than laminated foldouts Professional photographs for quick identification Whale watching locations organized by state Easy to use information for even casual observers Suggestions for choosing an eco friendly whale watching vessel Whale watching what to know and what to bring tips from an expert
