Deep-water Square-rigged Sailing Vessels Ever Constructed Joseph Ferrell Colton,1954      **The Windjammers** Oliver E. Allen,2004 Windjammer the word rang like an insult And that was the intention of hooting steamship crews who used it to describe the huge square rigged sailing vessels that were valiantly challenging the coming of steam on world trade routes But the jibe became an accolade For in truth in their 50 years of useful life the windjammers expressed the consummate majesty of sail and the climax of centuries of glorious evolution      *Uncommon Contexts: Encounters between Science and Literature, 1800-1914* Ben Marsden,Hazel Hutchinson,Ralph O'Connor,2016-09-12 Britain in the long nineteenth century developed an increasing interest in science of all kinds Whilst poets and novelists took inspiration from technical and scientific innovations those directly engaged in these new disciplines relied on literary techniques to communicate their discoveries to a wider audience The essays in this collection uncover this symbiotic relationship between literature and science at the same time bridging the disciplinary gulf between the history of science and literary studies Specific case studies include the engineering language used by Isambard Kingdom Brunel the role of physiology in the development of the sensation novel and how mass communication made people lonely      **The Sailors' Magazine and Seamen's Friend** ,1906
