## **Pro Conscious Consumerism:**

*The Oxford Handbook of Political Consumerism* Magnus Boström, Michele Micheletti, Peter Oosterveer, 2019-01-25  
This volume offers the first comprehensive theoretical and comparative overview of the ways in which the market becomes a political arena. It maps the four major forms of political consumerism: boycotting, buycotting, spending to show support, lifestyle politics, and discursive actions such as culture jamming. Chapters by leading scholars examine political consumerism in different locations and industry sectors and in consideration of environmental and human rights problems, political events, and the ethics of production and manufacturing practices. *Social Science Perspectives on Climate Change* David Canter, 2017-10-02  
Although it is generally accepted that the climate is changing for the worse and that human activities are a major contributing factor in that change, there is still only a marginal response to the challenge posed by climate change. The reasons behind this limited response are becoming clearer through the recognition that climate change is not just a set of physical science facts but it is also part of a series of complex social processes. Consequently, this book is important in providing social science perspectives on a range of attempts to adjust human activity to reduce its environmental impact. These attempts vary from the changing of the dress code in Japanese offices to the creation of zero carbon gated communities in Bangalore, India. Taken together, the contributions to this book provide timely insights into the complexities of saving the planet through human endeavour. This book was originally published as a special issue of *Contemporary Social Science*. *Handbook of Tourism and Consumer Behavior* Danni Zheng, Metin Kozak, Jun Wen, 2024-11-08  
This Handbook evaluates cutting edge research on consumer behavior in the modern day, discussing key areas such as emerging tourism experiences and technology enabled services. **Digitalizing Consumption** Franck Cochoy, Johan Hagberg, Magdalena Petersson McIntyre, Niklas Sörum, 2017-07-14  
Contemporary consumer society is increasingly saturated by digital technology and the devices that deliver this are increasingly transforming consumption patterns. Social media, smartphones, mobile apps, and digital retailing merge with traditional consumption spheres supported by digital devices which further encourage consumers to communicate and influence other consumers to consume. Through a wide range of empirical studies which analyse the impact of digital devices, this volume explores the digitization of consumption and shows how consumer culture and consumption practices are fundamentally intertwined and mediated by digital devices. Exploring the development of new consumer cultures, leading international scholars from sociology, marketing, and ethnology examine the effects on practices of consumption and marketing through topics including big data, digital traces, streaming services, wearables, and social media's impact on ethical consumption. *Digitalizing Consumption* makes an important contribution to practice based approaches to consumption, particularly the use of market devices in consumers' everyday consumer life and will be of interest to scholars of marketing, cultural studies, consumer research, organization, and management. *Advances in Business, Management and Entrepreneurship* Ratih Hurriyati, Benny Tjahjono, Ikuro Yamamoto, Agus Rahayu, 2020-01-06  
The GCBME Book Series aims to
