Uniquely Human:

Uniquely Human: The Basis of Human Rights Gabriel Moran, 2013 The basis of human rights remains in need of exploration The effectiveness of the language of human rights is threatened by its widespread but uncritical use This book is neither a sermon to believers nor an attack by a skeptic It is a critical look at the basis of those few rights that are genuinely universal for example a right not to be tortured or a right to basic subsistence A human right is a claim that every human being can make on the whole human race The rights that are specifically human arise from a human respect for all living beings There is still a widespread assumption that human rights is just another name for the confused idea of natural rights from the eighteenth century rights that were promulgated by and for adult white males The authors of the UN s Universal Declaration of Human Rights in 1948 assumed that they were reformulating an old idea Instead they were beginning a new idea Human rights can be realized only through conversations across differences within gender age culture and religion This book traces those continuing conversations that fill out the diversity within the unity of the human race The convergence of many particular traditions creates a human tradition that can sustain human rights as a standard of moral conduct for all nations

Edwin Abbott Abbott, 1886 American Compact Gary Rosen, 1999 For students of the early American republic James Madison has long been something of a riddle the member of the founding generation whose actions and thought most stubbornly resist easy summary The staunchest of Federalists in the 1780s Madison would turn on his former allies shortly thereafter renouncing their expansive nationalism as a threat to the Constitution and to popular government In a study that combines penetrating textual analysis with deep historical awareness Gary Rosen stakes out important new ground by showing the philosophical consistency in Madison s long and controversial public life The key he argues is Madison s profound originality as a student of the social compact the venerable liberal idea into which he introduced several novel and seemingly illiberal principles Foremost among these was the need for founding to be the work of an elite few For Madison prior accounts of the social compact in their eagerness to establish the proper ends of government provided a hopelessly naive account of its origin As he saw it the Federal Convention of 1787 was an opportunity for those of outstanding prudence understood in its fullest Aristotelian sense to do for the people what they could not do for themselves This troublesome reliance on the few was balanced Rosen contends by Madison s commitment to republicanism as an end in itself a conclusion that he likewise drew from the social compact accommodating the proud political claims that his philosophical predecessors had failed to recognize Rosen goes on to show how Madison s idiosyncratic understanding of

the social compact illuminates his differences not only with Hamilton but with Jefferson as well Both men Madison feared were too ready to resort to original principles in coming to terms with the Constitution putting at risk the fragile achievement of the founding in their determination to invoke respectively the claims of the few and the many As American Compact persuasively concludes Madison s ideas on the origin and aims of the Constitution are not just of historical interest They carry crucial lessons for our own day and speak directly to current disputes over diversity constitutional interpretation the fate of federalism and the possibilities and limits of American citizenship *Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain* ,1899 *Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain* Victoria Institute (Great Britain),1899 Each volume includes list of members and objects of the institute except v 31 which has no list of members Beginning with v 12 a list of the papers contained in preceding volumes is issued regularly with each volume *Humanity 3000 Seminar* Foundation for the Future,2000 Documents scholarly discussions about the critical factors that might have the most impact on the long term survivability of humanity **An Easter Study in St. Peter** Samuel Fuller,1885 **The Quest** ,1920 **Motive** ,1924 **New Directions for Adult and Continuing Education** ,2005 *New-Church Messenger* ,1906 *The Presbyterian Quarterly* ,1903 **Agricultural Education** ,1930 *Publications in Philosophy* University of California, Berkeley,1926 **Contemporary Approaches to Psychotherapy and Counseling** Joseph F.
