**British Women's Short Supernatural Fiction, 1860-1930** Victoria Margree, 2019-11-08 This book explores women's short supernatural fiction between the emergence of first wave feminism and the post-suffrage period, arguing that while literary ghosts enabled an interrogation of women's changing circumstances, ghosts could have both subversive and conservative implications. Haunted house narratives by Charlotte Riddell and Margaret Oliphant become troubled by uncanny reminders of the origins of middle class wealth in domestic and foreign exploitation. Corpse-like revenants are deployed in Female Gothic tales by Mary Elizabeth Braddon and Edith Nesbit to interrogate masculine aestheticisation of female death. In the culturally hybrid supernaturalism of Alice Perrin the *Marriage Question* migrates to colonial India, and psychoanalytically informed stories by May Sinclair, Eleanor Scott, and Violet Hunt explore just how far gender relations have really progressed in the post-First World War period. Study of the woman's short story productively problematises literary histories about the golden age of the ghost story and about the transition from Victorianism to modernism.

**Victorian Secrets** Sarah A. Chrisman, 2013-11-01 On Sarah A. Chrisman's twenty-ninth birthday, her husband Gabriel presented her with a corset. The material and the design were breathtakingly beautiful, but her mind immediately filled with unwelcome views. Although she had been in love with the Victorian era all her life, she had specifically asked her husband not to buy her a corset ever. She'd heard how corsets affected the female body and what they represented, and she wanted none of it. However, Chrisman agreed to try on the garment and found it surprisingly enjoyable. The corset she realized was a tool of empowerment, not oppression. After a year of wearing a corset on a daily basis, her waist had gone from thirty-two inches to twenty-two inches; she was experiencing fewer migraines, and her posture improved. She had successfully transformed her body, her dress, and her lifestyle into that of a Victorian woman, and everyone was asking about it. In *Victorian Secrets*, Chrisman explains how a garment from the past led to a change in not only the way she viewed herself but also the ways she understood the major differences between the cultures of the twenty-first century and the nineteenth century America. The desire to delve further into the Victorian lifestyle provided Chrisman with new insight into issues of body image and how women past and present have seen and continue to see themselves.

**British Literature and the Life of Institutions** Benjamin Kohlmann, 2021 Explores how late Victorian, Edwardian, and modernist literary texts responded and adapted to institutional change that characterized the emergence of the welfare state and links the development of the institutional forms of the state to the aesthetic forms of literary writing.

**The Urban Fantastic in Nineteenth-Century European Literature** Patricia García, 2022-01-17 *The Urban Fantastic in Nineteenth-Century European Literature* explores transnational perspectives of modern city life in Europe by engaging with the fantastic tropes and

metaphors used by writers of short fiction Focusing on the literary city and literary representations of urban experience throughout the nineteenth century the works discussed incorporate supernatural occurrences in a European city and the supernatural of these stories stems from and belongs to the city The argument is structured around three primary themes Architectures Encounters and Rhythms make reference to three axes of city life material space human encounters and movement This thematic approach highlights cultural continuities and thus supports the use of the label of urban fantastic within and across the European traditions studied here [The Victorian Law Reports](#) Victoria.
