Visions Level A Assessment Program:

Energy Vision 2020 Integrated Resource Plan, 1995 *Business as Usual: An Assessment of Donald Rumsfeld's Transformation Vision and Transformation's Prospects for the Future* Mark G. Czelusta, 2010-11 Donald Rumsfeld's vision of a transformed U S military has been discussed by many and understood by few and this lack of understanding has resulted in both significant simplifications and sweeping generalizations If Rumsfeld's Transformation is indeed dead does this mean that Transformation as a greater process is dead as well This report discusses the answers to this question which requires one to understand first that Rumsfeld's Transformation Vision RTV is the result of multiple influences that predate his time in office Second RTV is actually an umbrella term for 3 different things a new way of war a process and a defense strategy And third the military services shaped and at times limited the effectiveness of his program Illus

Social Capital Marion Orr, 1999 Deindustrialization white flight and inner city poverty have spelled trouble for Baltimore schools Marion Orr now examines why school reform has been difficult to achieve there revealing the struggles of civic leaders and the limitations placed on Baltimore's African American community as each has tried to rescue a failing school system Examining the interplay between government and society Orr presents the first systematic analysis of social capital both within the African American community black social capital and outside it where social capital crosses racial lines Orr shows that while black social capital may have created solidarity against white domination in Baltimore it hampered African American leaders capacity to enlist the cooperation from white corporate elites and suburban residents needed for school reform Orr examines social capital at the neighborhood level in elite level interactions and in intergovernmental relations to argue that black social capital doesn't necessarily translate into the kind of intergroup coalition needed to bring about school reform He also includes an extensive historical survey of the black community showing how distrust engendered by past black experiences has hampered the formation of significant intergroup social capital The book features case studies of school reform activity including the first analysis of the politics surrounding Baltimore's decision to hire a private for profit firm to operate nine of its public schools These cases illuminate the paradoxical aspects of black social capital in citywide school reform while offering critical perspectives on current debates about privatization site based management and other reform alternatives Orr's book challenges those who argue that social capital alone can solve fundamentally political problems by purely social means and questions the efficacy of either privatization or black community power to reform urban schools Black Social Capital offers a cogent conceptual synthesis of social capital theory and urban regime theory that demonstrates the importance of government politics and leadership in converting social capital into a resource that can be mobilized for effective social change
