Walden West:

Walden West August William Derleth, 1973* **Walking Home Ground** Robert Root, 2017-10-24 When longtime author Robert Root moves to a small town in southeast Wisconsin he gets to know his new home by walking the same terrain traveled by three Wisconsin luminaries who were deeply rooted in place John Muir Aldo Leopold and August Derleth Root walks with Muir at John Muir State Natural Area with Leopold at the Shack and with Derleth in Sac Prairie closer to home he traverses the Ice Age Trail often guided by such figures as pioneering scientist Increase Lapham Along the way Root investigates the changes to the natural landscape over nearly two centuries and he chronicles his own transition from someone on unfamiliar terrain to someone secure on his home ground In prose that is at turns introspective and haunting *Walking Home Ground* inspires us to see history's echo all around us the parking lot that once was forest the city that once was glacier Perhaps this book is an invitation to walk home ground Root tells us Perhaps too it's a time capsule a message in a bottle from someone given to looking over his shoulder even as he tries to examine the ground beneath his feet *Dude* G. B. Trudeau, 2012-06-05 This breathtaking volume boldly cheerfully and blankly stares back across the stunningly mellow life and times of Zonker Harris From his Californian American roots to his legendary status as surfer nanny and former sun god his career trajectory has unfailingly carried him ever deeper into the homegrown heart of the American daydream A puddle plumbing denizen of Walden Commune Harris spent his formative years as a bodaciously freaked out college student His innovative decoding of the rites and rituals of the burgeoning counterculture put him on the cover of *Time* Forced by a strategic oversight to graduate from college Harris blazed a path to glory on the pro tanning circuit His triumph in the George Hamilton Cocoa Butter Open set a high watermark for the sport Family values led Harris to devote considerable time to helping his stunned parents refill their empty nest Extended family values propelled him into a career as a professional nanny in which capacity he has indeed taught the children well especially Sam who was surfing the long board while still in diapers Later leveraging his political cluelessness Zonker served on the disastrous Duke 2000 presidential campaign A devoted foot soldier in the war against AIDS suffering Zonk is held in high regard among SoCal's medical marijuana community for the efficacious potency of his magic brownies Unfazed by worldly success he remains a true and gentle freak After all he humbly notes I am but one dude **1906 San Francisco Earthquake Centennial Field Guides** Carol S. Prentice, 2006-01-01 The twenty field trip guides in this volume represent the work of earthquake professionals from the earth science engineering and emergency management communities The guides were developed to cross the boundaries between these professions and thus reflect this diversity trips focus on the built environment the effects of the 1906 earthquake the San Andreas fault and other active faults in northern California *California. Court of Appeal (1st Appellate District). Records and Briefs* California (State)., [Where's the San Andreas Fault?](#) Philip Ward Stoffer, 2006 [Modern American Environmentalists](#) George A. Cevalco, Richard P. Harmond, 2009-04-27 *Modern American Environmentalists*

profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement. Included are iconic environmentalists such as Rachel Carson, E. O. Wilson, Gifford Pinchot, and Al Gore, and important but less expected names including John Steinbeck and Allen Ginsberg. The entries recount how each individual became active in environmental conservation, detail his or her significant contributions, trace the influence of each on future efforts, and discuss the person's legacy. The individuals selected for the book displayed either an unparalleled commitment to the conservation, preservation, restoration, and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century. With a foreword by environmental historian Everett R. Mendelsohn, a time line of key environmental events, a bibliography of groundbreaking works, and an index organized by specialization, this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement.
