**Revelation of Metatron** Scriptural Research Institute, 1901 The Revelation of Metatron is a medieval Jewish work that claims to have been written in the late 2nd century AD by Rabbi Ishmael the High Priest It is known by various names including the Sepher Hekhalot Book of the Palaces the 3rd Book of Enoch and the Book of Rabbi Ishmael the High Priest although its most common name is the Revelation of Metatron The earliest name for the work was likely the Sepher Hekhalot Book of the Palaces however all copies have been so reworked that it cannot be known for sure It is clear that Rabbi Ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book Rabbi Ishmael was the author of the book called Hekhalot Rabbati Greater Palaces sometime between 100 and 130 AD and his name was later used as a pseudonym by many authors of Merkabah literature between 200 and 1000 AD Hekhalot Palaces and Merkabah Flying chariot are two related forms of Jewish literature that developed from the visions from in the prophetic books such as Ezekiel apocalyptic books such as Isaiah and the Enochian tradition Hekhalot literature which includes books that focus on Merkabah such as Maaseh Merkabah Working of the Flying Chariot is the term used for works written during the Second Temple era During the Second Jewish Roman War Merkabah literature was prohibited largely it seems due to the teachings of Rabbi Elisha ben Abujah more commonly referred to as Aher meaning the other After the literature was banned it went underground and continued to be used in secret resulting in the Merkabah Flying chariot literature which itself later gave rise to the Kabbalah school of Judaism At each stage the literature became more metaphysical and spiritual resulting in stranger and stranger texts for the uninitiated much of which can be seen in the various additions and redactions to the Revelation of Metatron The contents of the chapters

of the Ascension of Moses that have survived to the present show that the Ascension is an earlier version of the Revelation of Metatron and the original protagonist of the story later redacted to Rabbi Ishmael There are several parallels between the stories of Moses and Metatron in the Ascension and the stories of Ishmael and Metatron in the Revelation however the Revelation includes several heretical concepts that the original redactor and author of Chapter 16 did not want to ascribe to Moses and therefore used the popular Merkabah pseudonym Ishmael The date of the original redaction is also difficult to determine as Aher is a heretic in the Talmuds and Tosefta and so the derogatory nick name could have been adopted from the Talmud or Tosefta at any point Nevertheless if the original work was Rabbi Elisha s Aher s Sepher Hekhalot it would have likely been redacted before the Babylonian Talmud s version of the story which did not bother to name him By that point the text would have been by a generally unknown author and there would have been no reason to redact his name from it This would place the original redaction sometime before 450 AD and likely in Byzantine Palestine *The Michigan Technic* ,1961

This book presents a compendium of methodologies for evaluating the economic impact of technological innovation upon climate change policy. There is a broad consensus on the key elements of climate change science and agreement that near-term actions are needed to prevent dangerous anthropogenic interference with the climate system. However, there is little agreement on the costs and benefits of climate policy. Any policy implementation will result in an irreversible but environment-improving investment in alternative technologies; this change will generate immediately realized costs but significantly delayed benefits. Hence, a critical element in policy selection is the inherent uncertainty in the climate and economy that can be expected over time.      **Nature** Sir Norman Lockyer, 1877      Quarterly Return Great Britain.
