Words For Elephant Man:

Words for Elephant Man ,1996 **Words for Elephant Man** Kenneth Sherman,2012 Kenneth Sherman s collection Words for Elephant Man delves into the fascinating life of Joseph Merrick the titular Elephant Man who came to prominence as a sideshow curiosity in England in the late nineteenth century Sherman s spare captivating verse gives a voice to Merrick s fraught and complex existence and couples it with a genuine compassion quite distant from the chill of a gawking public

Her Elephant Man Pearl Doles Bell,1919 **Levinas and the Other in Narratives of Facial Disfigurement** Gudrun Grabher,2019-04-30 Offering readings of a range of fictional and biographical texts including work by Richard Selzer Nathaniel Hawthorne Gaston Leroux Willa Cather Natalie Kusz and Lucy Grealy this book examines reactions to facially disfigured people on the basis of Emmanuel Levinas ethics of the face Drawing on Levinas concern with the holistic dimension of the face as an encounter with the other s whole person and the sense of moral obligation that this instills in us a sense that disfigurement disrupts by drawing our attention to the disfigurement as a spectacle and threatening to limit our view of that individual the author explores how we react to the facially disfigured and how we ought to react **The Disfigured Face in American Literature, Film, and Television** Cornelia Klecker,Gudrun M. Grabher,2021-11-29 The face being prominent and visible is the foremost marker of a person s identity as well as their major tool of communication Facial disfigurements congenital or acquired not only erase these significant capacities but since ancient times they have been conjured up as outrageous and terrifying often connoting evil or criminality in their associations a dark secret being suggested behind the mask the disfigurement indicating punishment for sin Complemented by an original poem by Kenneth Sherman and a plastic surgeon s perspective on facial disfigurement this book investigates the exploitation of these and further stereotypical tropes by literary authors filmmakers and showrunners considering also the ways in which film television and the publishing industry have more recently tried to overcome negative codifications of facial disfigurement in the search for an authentic self behind the veil of facial disfigurement An exploration of fictional representations of the disfigured face this book will appeal to scholars of sociology cultural and media studies American studies and literary studies with interests in representations of disfigurement and the Other [The Boundaries of Humanity](#) James J. Graham, Fritz Oehlschlaeger, 1992 The surgeon Frederick Treves and the anthropologist Ashley Montagu helped make him famous Filmmaker David Lynch and playwright Bernard Pomerance made him a star According to the popular press singer Michael Jackson wanted to buy his bones from London Hospital Stories about Joseph Merrick the Elephant Man of Victorian England combine elements of myth and fable tragedy and melodrama freak show and farce And they seem to have perennial appeal In Articulating the Elephant Man Peter W. Graham and Fritz H. Oehlschlaeger examine how the phenomenon called the Elephant Man has been constructed and reconstructed how Joseph Merrick has been transformed from a suffering individual into an exhibit a shape shifting curiosity whose different guises variously suit the needs of particular audiences genres and interpreters Merrick's presenters have been a varied group of artists medical experts scholars and biographers But preceding them all is Merrick himself no mere passive sufferer but an individual who bravely endured and when he had to successfully exploited his outrageous bodily disorder According to Graham and Oehlschlaeger each account starting with Merrick's autobiographical pamphlet blends description and creation observation and self revelation and the selective recording alteration and suppression of details Telling the story of the Elephant Man whether as a drama a film a sequence of poems or a medical case study often reveals as much about the observer as it does about the subject The Victorians accounts

of Merrick for example reflect that era's tendency to normalize the extraordinary to colonize the exotic. For them Merrick was both an ideal object of charity and a challenge to their most basic assumptions about humanity. In our own time Merrick is cast as the ultimate outsider. If it was culturally convenient for the Victorians to patronize Merrick and congratulate his benefactors, contemporary cultural biases make it easier for us to admire him as a subversive hero and to debunk his exploiters. Like the hero of a folk tale, the real Merrick suffered indignities but enjoyed a dramatic change of fortune. At the end of his life he had attained a measure of comfort, a small portion of fame, and the courteous notice of the eminent, the beautiful, even the royal. At the heart of his story, the authors suggest, is Merrick's humanity, and telling his story helps us define our own. Merrick faced what every human being who grows old or falls ill must endure: the sufferer's painful questions about cause and effect, about personal guilt or cosmic cruelty. He knew the isolation felt by every outsider, the poor, the homeless, the victimized, even the modern superstar. And like each of us, he must have wondered if appearance is after all a misleading mask.
