Proceedings of the 20th Congress of the International

Ergonomics Association (IEA 2018) Sebastiano Bagnara, Riccardo Tartaglia, Sara Albolino, Thomas Alexander, Yushi Fujita, 2018-08-10 This book presents the proceedings of the 20th Congress of the International Ergonomics Association IEA 2018 held on August 26-30, 2018 in Florence, Italy. By highlighting the latest theories and models as well as cutting edge technologies and applications and by combining findings from a range of disciplines including engineering, design, robotics, healthcare, management, computer science, human biology, and behavioral science, it provides researchers and practitioners alike with a comprehensive, timely guide on human factors and ergonomics. It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize system performance while at the same time promoting the health, safety, and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers, and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains, and productive sectors. This volume includes papers addressing the following topics: Ergonomics in Design, Activity Theories for Work Analysis and Design, and Affective Design.

Correctional Counseling and Rehabilitation Emily J. Salisbury, Patricia Van Voorhis, 2022-05-17 This text presents the foundations of correctional treatment and intervention, including overviews of the major therapeutic modalities that are effective when intervening with justice-involved individuals to reduce ongoing system involvement and improve wellbeing. The text also focuses on diagnosis of mental illness, correctional assessment, and classification, case planning strategies, and the necessary counseling and human service skills for working alongside system-involved people. Specific chapters focus on working with women, individuals struggling with substance abuse, and clients with severely antisocial behavior such as psychopathy. Written to help students prepare for a career in correctional counseling or forensic social work, the book also assists working professionals, e.g., institutional and community corrections staff, to determine which strategies might be most effective with their clients. Revised using person-centered language, the tenth edition includes a new chapter focused on the necessary relational skills that probation and parole officers must have to be agents of behavior change. The content is divided into four parts: 1. A Professional Framework for Correctional Counseling; 2. Client Assessment, Diagnosis, Classification, and Case Planning; 3. Contemporary Approaches for Correctional Counseling and Treatment; and 4. Effective Correctional Interventions for Special Populations. This book is appropriate for upper-level undergraduates and graduate students in Criminal Justice and Criminology, Psychology, and Social Work programs, as well as correctional practitioners looking for professional development to enhance behavior change among clients.
