Climate Finance Fei Wu,Dayong Zhang,Qiang Ji,2024-07-27 This book focuses on the frontier issues in climate finance and aims to develop a general framework to understand the financial pathways towards a successful energy transition It builds upon the general descriptions of the current status and future challenges towards carbon neutral targets and then bring forward a combination of theoretical and empirical analysis on the critical issues related to climate finance Estimated by the International Energy Agency IEA trillions dollars of investment in energy sector are needed to achieve net zero emission scenario It provides a huge opportunity for our economies meanwhile creates considerable

challenges to the existing system Both financing and investment in such an unprecedented scale cannot possibly be satisfied by the current financial architecture which creates demands for restructuring in the financial sector developing innovative financial instruments building mechanisms to attract private investment and establishing human resources to facilitate climate financing and investment This area is essentially interdisciplinary which requires a fundamental reconsideration of standard approaches Aiming to satisfy the broad interests from both academia and policymakers the contents of this book range from general discussions on critical issues to advanced statistical analyses on key topics Authors hope to bring forward a general picture about climate finance and facilitate the demands for both academic research and policymaking It should also provide a good guidance for graduate students interested in this subject The main contents of this book are based on solid research outcomes but with clear policy relevance The book combines finance theory and practices in both financial markets and energy sectors to reflect the complex nature of financing for energy transition While the materials can provide useful knowledge to policymakers the book can also inspire new research ideas in the relevant area

Toward a PFAS-free Future Simona A Bălan,Thomas A Bruton,Kimberly G Hazard,2023-11-17 Perfluoroalkyl and polyfluoroalkyl substances PFASs are extensively used in consumer products despite their high persistence and other hazards The risks posed by this chemical class to human health and the environment which are increasingly becoming understood have triggered regulation and policy changes However safer alternatives to these technically effective materials and methods to discover and use those alternatives are still under development Remediation of PFAS contaminated sites will not solve the growing worldwide pollution but substitution with safer substances at the formulation and manufacturing phases will at least abate the flow of PFASs into our bodies and environment Introducing safer alternatives to some of the PFASs of concern used in select industry sectors this book informs the reader about the processes of chemical hazard and alternatives assessment that can foster innovation It is a valuable resource for both green chemists and industrial chemists interested in how they can make their products safer without compromising on function

Brick and Block Masonry Claudio Modena,F. da Porto,M.R. Valluzzi,2016-11-03 Brick and Block Masonry Trends Innovations and Challenges contains the lectures and regular papers presented at the 16th International Brick and Block Masonry Conference Padova Italy 26 30 June 2016 In an ever changing world in which innovations are rapidly implemented but soon surpassed the challenge for masonry the oldest and most traditional building material is that it can address the increasingly pressing requirements of quality of living safety and sustainability This abstracts volume and full paper USB device focusing on challenges innovations trends and ideas related to masonry in both research and building practice will prove to be a valuable source of information for researchers and practitioners masonry industries and building management authorities construction professionals and educators

Green Building Products, 3rd Edition Alex Wilson,Mark Piepkorn,2008-01-01 Interest in sustainable green building practices is greater than ever Whether concerned about allergies energy costs old growth forests or durability and long term

value homeowners and builders are looking for ways to ensure that their homes are healthy safe beautiful and efficient In these pages are descriptions and manufacturer contact information for more than 1 400 environmentally preferable products and materials All phases of residential construction from sitework to flooring to renewable energy are covered Products are grouped by function and each chapter begins with a discussion of key environmental considerations and what to look for in a green product Over 40% revised this updated edition includes over 120 new products Categories of products include Sitework and landscaping Outdoor structures Decking Foundations footers and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems HVAC Plumbing electrical and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation There is no more comprehensive resource for both the engaged homeowner and those who design and build homes

Green Building Products The Greenspec Guide To Residential Building Materials—3Rd Edition ,2008

Interest in sustainable green building practices is greater than ever Whether concerned about allergies energy costs old growth forests or durability and long term value homeowners and builders are looking for ways to ensure that their homes are healthy safe beautiful and efficient In these pages are descriptions and manufacturer contact information for more than 1 400 environmentally preferable products and materials All phases of residential construction from sitework to flooring to renewable energy are covered Products are grouped by function and each chapter begins with a discussion of key environmental considerations and what to look for in a green product Over 40 percent revised this updated edition includes over 120 new products Categories of products include Sitework and landscaping Outdoor structures Decking Foundations footers and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems HVAC Plumbing electrical and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation There is no more comprehensive resource for both the engaged homeowner and those who design and build homes Editor Alex Wilson is president of BuildingGreen an authoritative source for information on environmentally responsible design and construction which also publishes Environmental Building News Co editor Mark Piepkorn has extensive experience with natural and traditional building methods
