Study Of Pleasure:

Pleasures of the Brain Morten L. Kringelbach, Kent C. Berridge, 2010 Pleasure is fundamental to well being and the quality of life but until recently was barely explored by science Current research on pleasure has brought about ground breaking developments on several fronts and new data on pleasure and the brain have begun to converge from many disparate fields The time is ripe to present these important findings in a single volume and so Morten Kringelbach and Kent Berridge have brought together the leading researchers to provides a comprehensive review of our current scientific understanding of pleasure The authors present their latest neuroscientific research into pleasure describing studies on the brain s role in pleasure and reward in animals and humans including brain mechanisms neuroimaging data and psychological analyses as well as how their findings have been applied to clinical problems such as depression and other disorders of hedonic well being To clarify the differences between their views the researchers also provide short answers to a set of fundamental questions about pleasure and its relation to the brain This book is intended to serve as both a starting point for readers new to the field and as a reference for more experienced graduate students and scientists from fields such as neuroscience psychology psychiatry neurology and neurosurgery

The Oxford Handbook of Propaganda Studies Jonathan Auerbach, Russ Castronovo, 2013 Derived from the word to propagate the idea and practice of propaganda concerns nothing less than the ways in which human beings communicate particularly with respect to the creation and widespread dissemination of attitudes images and beliefs Much larger than its pejorative connotations suggest propaganda can more neutrally be understood as a central means of organizing and shaping thought and perception a practice that has been a pervasive feature of the twentieth century and that touches on many fields It has been seen as both a positive and negative force although abuses under the Third Reich and during the Cold War have caused the term to stand in most recently as a synonym for untruth and brazen manipulation Propaganda analysis of the 1950s to 1989 too often took the form of empirical studies about the efficacy of specific methods with larger questions about the purposes and patterns of mass persuasion remaining unanswered In the present moment where globalization and transnationality are arguably as important as older nation forms when media enjoy near ubiquity throughout the globe when various fundamentalisms are ascendant and when debates rage about neoliberalism it is urgent that we have an up to date resource that considers propaganda as a force of culture writ large The handbook will include twenty two essays by leading scholars from a variety of disciplines divided into three sections In addition to dealing with the thorny question of definition the handbook will take up an expansive set of assumptions and a full range of approaches that move propaganda beyond political campaigns and warfare to examine a wide array of cultural contexts and practices

Aristotle's Nicomachean Ethics Book X, 2020-01-16 Accompanied by a new translation of Aristotle s Nicomachean Ethics X this volume presents a hybrid between a traditional commentary and a scholarly monograph Aristotle s text is divided into one hundred lemmata which not only explore comprehensively the

content and strength of each of these units of thought but also emphasise their continuity showing how the smaller units feed into the larger structure The Commentary illuminates what Aristotle thinks in each lemma and why and also shows how he thinks In order to bring Aristotle alive as a thinker it often explores several possible ways of reading the text to enable the reader to make up their own mind about the best interpretation of a given passage The relevant background in Plato's dialogues is discussed and a substantial Introduction sets out the philosophical framework necessary for understanding Book X the final and most arresting section of the Ethics **Aristotle's Nicomachean Ethics Book X** Joachim
