Tiger In Action:

Tigers of the World Ronald Tilson, Philip J. Nyhus, 2009-11-30 *Tigers of the World* Second Edition explores tiger biology ecology conservation management and the science and technology that make this possible In 1988 when the first edition was published tiger conservation was still in its infancy and two decades later there has been a revolution not only in what is known but how information about tigers is obtained and disseminated In the fast changing world of conservation there is a great need to summarize the vast and current state of the art to put this into historical perspective and to speculate in what yet remains to be done *Tigers of the World* Second Edition fulfills this need by bringing together in a unique way the world's leading tiger experts into one volume Despite the challenges ahead there are bright spots in this story and lessons aplenty not only for tiger specialists but large carnivore specialists conservation biologists wildlife managers natural resource policymakers and most importantly the caring public Examines the past twenty years of research from the world's leading tiger experts on biology politics and conservation Describes latest methods used to disseminate and obtain information needed for conservation and care of this species Includes coverage on genetics and ecology policy poaching and trade captive breeding and farming and the status of Asia's last wild tigers Excellent resource for grad courses in conservation biology wildlife management and veterinary programs New volume continues the classic Noyes Series in Animal Behavior Ecology Conservation and Management

China and the Internet Song Shi, 2023-12-15 Two oversimplified narratives have long dominated news reports and academic studies of China's Internet one lauding its potentials to boost commerce the other bemoaning state control and measures against the forces of political transformations This bifurcation obscures the complexity of the dynamic forces operating on the Chinese Internet and the diversity of Internet related phenomena *China and the Internet* analyzes how Chinese activists NGOs and government offices have used the Internet to fight rural malnutrition the digital divide the COVID 19 pandemic and other urgent problems affecting millions of people It presents five theoretically informed case studies of how new media have been used in interventions for development and social change including how activists battled against COVID 19 In addition this book applies a Communication for Development approach to examine the use and impact of China's Internet Although it is widely used internationally in Internet studies Communication for Development has not been rigorously applied in studies of China's Internet This approach offers a new perspective to examine the Internet and related phenomena in Chinese society

Riding the Tiger John Seidensticker, Peter Jackson, Sarah Christie, 1999-02-08 Beauty grace and power make the tiger one of the world's most loved animals yet it is precisely these

qualities that have been its downfall Poaching for skins and body parts loss of habitat and prey and conflicts between people and wild tigers have caused catastrophic declines in tiger numbers throughout their range If wild tigers are to survive through the next century we must act now Riding the Tiger is a comprehensive scientific and eminently readable account of the problems and possible solutions of securing a future for wild tigers Lavishly illustrated in full colour it is written by leading conservationists working throughout Asia It is a vital information resource for tiger conservationists in the field necessary reading for serious students of carnivore conservation and conservation biologists in general and an accessible overview of tiger conservation for general readers
