Current Topics in Animal Learning Lawrence Dachowski, Charles F. Flaherty, 2013-02-01 This book based on the Flowerree Mardi Gras Symposium at Tulane University juxtaposes contemporary research and theory from several areas of animal learning learning theory comparative cognition animal models of human behavior and functional neurology Investigators pursuing these different routes often work in isolation of progress being made in what should be related fields This book will acquaint students and researchers with a variety of topics ordinarily treated separately in a way that will stimulate integrative thinking Cognitive interpretations of animal learning are included as well as recent developments in conditioning theory physiological bases of learning animal models of human behavior problems and psychopharmacology

The Wild Card Mark Joseph, 2011-04-01 Four grown men friends since childhood a man of though a man of leisure an outlaw and a cop reunite in San Francisco for a weekend long game of cards in the Palace Hotel s Enrico Caruso Suite Every year they do this It gives them a chance to catch up to renew their friendships to relive their glory days To smoke drink laugh and lose themselves and their cares for a couple of days It also allows them to reaffirm by unspoken consent that the deadly secret they share has remained safe for another year Thirty years earlier there were five friends Just out of high school preparing for college optimistic and energetic they took a boat trip up a river Then an outburst of drunken teenage savagery at a place called Shanghai Bend left four boys scrambling to cover their tracks And a fifth Bobby McCorkle disappeared For thirty years Bobby drifted aimlessly through the firefights of Vietnam across the United States and back a hundred times and into every numbed recess of his conscience that heroin and alcohol could take him He survived by his wits but he lived by his trade he became a gambler In 1995 construction crews dig up a skeleton at Shanghai Bend Now McCorkle must rejoin his old pals at the card table and confront their secret together What does each man bring How much does each know And how far will each go to protect the secret The game begins the stakes go up Will they be exposed Will their lives be ruined Bluff Double bluff Call Before the weekend is over these five men will find themselves playing for their lives

**Wild Cards III: Jokers Wild** George R. R. Martin, Wild Cards Trust, Edward Bryant, Leanne C. Harper, John J. Miller, Lewis Shiner, Melinda M. Snodgrass, Walton Simons, 2014-02-11 On September 15 1946 the Wild Card virus was release spreading a wave of mutations around the globe

**The Official Rules of Card Games**, 1921 *Ironies of Oneness and Difference* Brook Ziporyn, 2012-09-20 Providing a bracing expansion of horizons this book displays the unsuspected range of human thinking on the most basic categories of experience The way in which early Chinese thinkers approached concepts such as one and many sameness and difference self and other and internal and external stand in stark contrast to the way parallel concepts entrenched in much of modern thinking developed in Greek and European thought Brook Ziporyn traces the distinctive and surprising philosophical journeys found in the works of the formative Confucian and Daoist thinkers back to a prevailing set of assumptions that tends to see questions of identity value and knowledge the subject matter of ontology ethics and

epistemology in other traditions as all ultimately relating to questions about coherence in one form or another Mere awareness of how many different ways human beings can think and have thought about these categories is itself a game changer for our own attitudes toward what is thinkable for us The actual inhabitation and mastery of these alternative modes of thinking is an even greater adventure in intellectual and experiential expansion
