The Thematic Apperception Test Silvan S. Tomkins, 1947 [The Thematic Apperception Test, the Children's Apperception Test, and the Senior Apperception Technique in Clinical Use](#) Leopold Bellak, 1993 For forty years this book has been the leading source of training for clinicians interested in learning how to use thematic apperception techniques in clinical practice Interest in these techniques is on the rise numerous surveys conducted over the last 10 years have found the Thematic Apperception Test to be among the most frequently used instruments across a variety of clinical settings Dr Bellak has written this new edition to reflect the current renewal of interest in the T A T and related techniques Like its predecessors the fifth edition shows the reader in an easy orderly way how to progress from primary data to clinical diagnosis With a rich selection of case material and many sample interpretations Dr Bellak provides a wealth of examples and actual analyzed test records He also provides a card by card analysis of which T A T cards are most likely to be helpful for specific purposes The fifth edition has been completely updated to reflect the newest research in addition to earlier research the annotated bibliography contains descriptive entries on more than 120 papers and studies published since 1980 Current issues and trends are also discussed Dr Bellak notes the increasing role of brief psychotherapy and points out the important contribution apperceptive techniques can make in this field He explains how apperceptive tests can be used to assist in neuropsychological assessment such as in attention deficit disorder by analyzing the subject's organization language use and attention to pertinent picture details in T A T stories And he shows how the Senior Apperception Technique S A T may prove helpful in pinpointing problems in the elderly that can be successfully addressed by physicians social workers and nurses not specifically trained in clinical psychology Once again Dr Bellak has produced a major contribution to the literature of apperceptive techniques one that will enhance the work of a new generation of psychologists psychiatrists psychoanalysts social workers and other clinicians

The thematic apperception test; the theory and technique of interpretation Silvan Solomon Tomkins, 1972 **The Thematic Apperception Test and the Children's Apperception Test in Clinical Use** Leopold Bellak, 1954 [A Study of the Thematic Apperception Test \(TAT\) with Japanese Subjects](#) Jennifer L. Gray, 1999 The purpose of the study was to identify common themes on the Thematic Apperception Test TAT for Japanese subjects In addition Japanese TAT themes were compared with American TAT themes Stein 1981 for any significant differences It was hypothesized that significant differences in narrative themes would exist between Japanese and American subjects The subjects included sixty male and female college students attending courses in Tokyo Japan Subjects were enrolled in college

courses during the administration of the test and ranged in age from 18 to 27 years of age All the participants were fluent in English allowing them to make responses in that language therefore eliminating the errors inherent in translation Japanese subjects were then compared with Morris I Stein s original study of eighty American males conducted in 1981 Ten of the original Murray TAT cards were used 1 2 3BM 4 6BM 7GF 8BM 10 11 and 14 Japanese narratives were then scored using five variables for each of the ten cards hero gender the incidence of death need for achievement dominant emotional tone and the outcome of the story In conclusion common TAT themes for Japanese subjects were identified for all ten of the cards that were administered Cards 1 2 4 8BM 10 11 and 14 shared many of the same themes for Japanese and American subjects On the other hand cards 3BM 6BM and 7GF varied in theme content for Japanese and American subjects These findings will help determine the validity and reliability of the TAT as an assessment tool for Japanese subjects and open the door for future studies of Asian populations in the United States as this population is underrepresented in much of the research and literature of today

Evocative Images Lon Gieser, Morris Isaac Stein, 1999-01-01 For more than 6 decades psychologists have been exploring the needs drives sentiments complexes and conflicts of personality using the TAT Developed chiefly by Henry A Murray at the Harvard Psychological Clinic the TAT has worldwide uses in clinical military and industrial settings neuropsychological assessments forensic evaluations and creativity and motivation studies Yet researchers continue to debate its reliability and validity Despite the test s wide use and popularity no consensual scoring system or set of norms exists for the TAT In this book contributors retrace the roots of the TAT along with the circumstances that shaped and continue to shape the TAT s rich history theoretical and empirical grounding and continued practical value PsycINFO Database Record c 2004 APA all rights reserved
