Solving and Reasoning books for grades 3-6 present hands-on investigations that nurture reasoning and problem-solving strategies in each of the upper elementary grades. In lively and challenging investigations for grade 6 students have opportunities to reason about parts of a whole, analyse patterns of growth, discover area formulas for familiar shapes, explore scale factors and similar figures, and analyse a set of data to solve a real-world problem: how to arrange competitors in teams for an athletic festival. Students apply mathematical ideas from the five main content areas: number, algebra, geometry, measurement, and data analysis. As they work, they infer, generalise, reason by analogy, recognise relationships, and make representations, and they also predict, check, and revise and verify their results. Includes a supplemental CD-ROM that features applets for students use and resources for teachers professional development.
