

Figure 1. Top international country-to-country migration corridors, 2024

Source: UN DESA, 2021a; UNHCR, 2023a.

Notes: The corridors represent the number of international migrants (millions) born in the first-mentioned country and residing in the second. Corridors represent an accumulation of migratory movements over time and provide a snapshot of how migration patterns have evolved into significant foreign-born populations in specific destination countries.

Those corridors comprising mainly displaced persons are coloured orange. Revisions have been made based on large-scale displacement from Ukraine to neighbouring countries (as at end October 2023).
