A Musical Offering Martin Bernstein, 1977 In the great tradition of the German Festschrift this book brings together articles by Professor Bernstein's colleagues, friends, and students to honor him on his 70th birthday. Ranging in subject from the troubadour song through esoteric aspects of Renaissance studies and authenticity in 18th century musical sources to a lively and irreverent attack on performance practices today, the twenty essays by many of America's most distinguished scholars reflect the breadth and variety of Martin Bernstein's far-reaching interests and demonstrates the vitality and relevance of what is best in musicology today

The New Grove Dictionary of Music and Musicians: Appendixes Stanley Sadie, John Tyrrell, 2001 This reference classic has approximately doubled in size since its last publication 20 years ago and the expansion involves more than the thorough revision and addition of articles about music of the past. More articles about 20th century composers and composer-performers have been added as well as topical articles about the gender-related, multicultural, and interdisciplinary ways that music is now being studied. Add to these changes that New Grove is also available online making it a source that would have made its many-faceted creator Sir George Grove proud. Outstanding reference sources. *American Libraries* May 2002
