David Friedrich Strauss

World Views:

World Views and the Problem of Synthesis Diederik Aerts, Hubert Van Belle, J. van der Veken, 2012-12-06 This book considers philosophy to be more than mere reflection Through philosophy humankind can give meaning to the world In part this book re evaluates the philosophy of Leo Apostel who dedicated his life to the investigation of the use of philosophy in everyday life But it is also a presentation of international research carried out along the lines of the worldviews project The contributions address not only professional philosophers but also students teachers academics and everyone interested in the relationship between philosophy and the world Worldviews and Cultures Nicole Note, R. Fernet-Betancourt, J. Estermann, Diederik AERTS, 2008-12-23 Globalization brings people and cultures together producing in addition to deep and rich encounters exclusion racism xenophobia and asymmetries The present book takes these issues implicitly as its starting point by thoroughly reflecting on them from a perspective of worldviews as one of many approaches More specifically it focuses on people s implicit and explicit interpretations and assumptions of the world of themselves and of others Often deeply rooted and hard to change they have an important function for without them we would continually need to question what we do and what we think In their absolutist form these assumptions may become a barrier for open mindedness and hence for deep intercultural understanding and exchange We need to find a balance between both stances Intercultural philosophy tries to fulfil this role on the one hand by comparing different cultures on a deep philosophical level and as a way to better understand each other s core assumptions and on the other hand by arguing for an intercultural philosophy grounded in specific cases The contributions of this book conceive of another possible world which does not condemn cultural and religious diversity as a detonator for Clashes of Civilizations but rather welcomes it as a source of inspiration for all and of respect for the different Religion and Worldviews L. Philip Barnes, 2022-09-21 Religion and Worldviews The Triumph of the Secular in Religious Education provides the first serious analysis and review of the Commission on Religious Education s proposed worldviews framework for the subject It argues that religious education has an important contribution to make to the aims of liberal education and examines whether the shift to a worldview framework is capable of overcoming current weaknesses and initiating a new positive direction for the future Chapters explore the role of worldviews in Religious Education covering key debates including Whether there is need for new legislation on RE The nature of professionalism and the role of experts The extent to which there is educational value in study of the personal worldviews of students The role of the religious voice in RE The relation of religions to religious worldviews The aims of RE The relationship between the state and religion Consideration of the nature of a worldview The personal reflections of a member of the Commission on its proposals The chapters provide all that is necessary to understand and to evaluate the current debate on the appropriateness of a worldviews approach to RE Bringing together leading names in the field this is essential reading for trainee and practising teachers of Religious Education RE advisers and schools leaders responsible for curriculum development

Worldviews Richard DeWitt,2011-04-08 Updated throughout and with three entirely new chapters Worldviews An Introduction to the History and Philosophy of Science Second Edition furthers its reputation as the definitive introductory text on the historical developments and philosophical issues that inform our scientific view of the world around us Represents an innovative introduction to the history and philosophy of science designed especially for those coming to the subject for the first time Updated new edition features the addition of chapters focusing on scientific laws evolutionary theory and implications of evolution Covers the key historical developments and philosophical themes that have impacted our scientific view of the world around us Analyzes the transitions from the Aristotelian worldview to the Newtonian worldview to a new and currently developing worldview Explores challenges to the Western scientific worldview brought on by recent discoveries

Teaching Religious and Worldviews Education Creatively Sally Elton-Chalcraft,2024-07-30 Teaching Religious and Worldviews Education Creatively offers a fresh perspective on the Religious Education RE curriculum This second edition is crammed full of practical lesson ideas underpinned by cutting edge research authored by specialists in the field It helps teachers understand what constitutes an effective and creative Religion and Worldviews Education RWE curriculum and challenges teachers to view RWE as a transformatory subject that offers learners the tools to be discerning to work out their own beliefs and to answer puzzling questions This second edition of Teaching Religious and Worldviews Education Creatively includes fully updated chapters from the first edition with 11 new contributors and 5 brand new chapters New topics include Visits visitors and persona dolls The RE Searchers approach New ideas about policy practice and assessment Insights into RE in the UK and around the world Anti discriminatory RE New and updated practical classroom ideas from practicing teachers Teaching Religious and Worldviews Education Creatively is for all teachers who want to learn more about innovative teaching and learning in RWE in order to improve understanding knowledge and enjoyment while at the same time transforming their own as well as their pupils lives

Computers, Communication, and Mental Models Donald L. Day,2020-09-23 Computers Communication and Mental Models is a far ranging focused treatment of the cognitive and behavioural issues in computer mediated communication knowledge representation and computer supported co operative work It is also an argued development of the theoretical bases for treating computerized tools as intermediaries in the communication of mental maps between tool builders and users Empirical trails are reported in detail sufficient for representation in computer based instruction fractal dimensions of cognitive mapping and group decision support The book is a collection of multidisciplinary papers which each shed light on the complex interactions between users and systems architects via a common medium computerized tools

The World's Work Walter Hines Page,Arthur Wilson Page,1918 A history of our time

Conceptualising Religion and Worldviews for the School Kevin O'Grady,2022-07-14 This timely volume addresses current debates surrounding the transition from the teaching of religious education RE to the more holistic subject of Religion and Worldviews R W in England and posits criteria for best practice among educators in varied settings and in a

broader international context By examining empirical sources governmental reports and in particular the 2018 final report from the Commission on Religious Education CORE the volume suggests key principles needed to guide the transition and ensure that R W is effectively integrated into curricula pedagogy and teaching resources to meet the needs of all student groups By effectively conceptualising R W the volume gives particular attention to the intersections of the subject with democratic citizenship education intercultural competence and religious literacy This text will benefit researchers academics and educators with an interest in religious education and teacher education as well as the philosophy and sociology of education more broadly Those interested in education policy and politics as well as citizenship and schooling in the UK will also benefit from this volume
