The Slayer's Guide to Female Gamers James Desborough, 2002-11-26 This book examines a source of much mystery and consternation to your average role player The Female Gamer and the female of the species in general The only culture present here should be examined under a slide and given a long Latin name before being exterminated with penicillin None of this should be taken as offensive though it probably will be If you cannot see that we are also taking the Mickey out of male gamers as much if not more than gamers of the female persuasion then you need a humour transplant and a kick up your pert well rounded tightly chain mail clad arse Please accept that most gamers do not have issues with women they have a subscription a complete collection from issue one and fancy binders to keep them in Female gamers are a completely unknown quantity to the vast and overwhelming majority of gamers though matters have been ever so slowly changing in that regard As these creatures become more populous in the gaming fraternity it behooves the male gamer to at least make an attempt understand this creature and to make preparations for their increasing invasion It would not do to be caught unawares by any new creature or trap and every adventurer's motto should be Be prepared rather than Experience points Chaaaaaarge

The Slayer's Guide to Bugbears Mongoose Publishing, Sam Witt, 2002-04-30 Bugbears are cunning adversaries creatures that rarely fight to the death preferring to flee from a lost battle in order to nurse their vengeance for another day Adventurers who believe they can simply wade into a horde of bugbears and slay them in glorious combat are in for a rude shock and are certain to fall prey to the myriad of traps and ambushes the bugbears use in their own style of warfare This d20 supplement helps Games Masters use bugbears in their campaign in a way players will never forget

Pilkington,2015-05-01 Fantasy and science fiction began in print and from the first films to the latest blockbusters print stories have provided the inspirations the ideas and in some cases the detailed blueprints Adaption Studies has long been an area of intense debate in literature and film studies but no single work has ever approached fantasy and science fiction texts as unique and important areas of inquiry by themselves The Fantastic Made Visible with 16 fresh essays is the first book to do exactly that From the earliest adaptations of Jules Verne Robert A Heinlein and Shakespeare to recent films based on The

The Slayer's Guide to Kobolds Alejandro Melchor, Mongoose Publishing, Matthew Sprange, 2003-04-03 Kobolds are a common sight in many campaign worlds deemed by most adventurers to be a minor nuisance at best Certainly most experienced adventurers would question the need to study kobolds in any great depth but then few have faced the full might of a kobold clan and lived long enough to warn others of the peril they offer The Slayer's Guide to Kobolds offers insight to all adventurers in the culture and society of this vicious race enabling them to track down engage and wipe out dozens of these murderous beasts It can only be hoped that such efforts will be enough to stall and drive back a race that is almost literally numberless No race in any campaign world however exists solely to provide cannon fodder for allegedly heroic adventurers The Slayers Guide to Kobolds redresses this imbalance by giving Games Masters the information they need to make kobolds a solid and coherent part of their campaign No longer will players merely scoff and draw their swords when they meet a group of kobolds within some ancient ruin Finally kobolds will have the respect they have always deserved
