commission in 1766 as commander of HM Bark Endeavour for the first of three Pacific voyages In three voyages Cook sailed thousands of miles across largely uncharted areas of the globe He mapped lands from New Zealand to Hawaii in the Pacific Ocean in greater detail and on a scale not previously achieved As he progressed on his voyages of discovery he surveyed and named features and recorded islands and coastlines on European maps for the first time He displayed a combination of seamanship superior surveying and cartographic skills physical courage and an ability to lead men in adverse conditions Cook was attacked and killed in 1779 during his third exploratory voyage in the Pacific while attempting to kidnap a Hawaiian chief in order to reclaim a cutter stolen from one of his ships He left a legacy of scientific and geographical knowledge which was to influence his successors well into the 20th century and numerous memorials worldwide have been dedicated to him
