Strange Nests:

Wonderful Nests John George Wood, 1887 **Unusual Life Cycles of Birds** Jaclyn Jaycox, 2021 Have you ever heard of a bird that lays its eggs on the ground instead of in a nest What about a bird that lays eggs in other birds nests Young readers will learn all about killdeers cuckoo birds and other birds with unusual life cycles **Curious Homes and Their Tenants** James Carter Beard, 1897 **Ants** William Morton Wheeler, 1910 Available for the first time in English this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities The large scale imprisonment and rape of thousands of women who were euphemistically called comfort women by the Japanese military first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan much if it inspired by Yoshimi's investigations How large a role did the military and by extension the government play in setting up and administering these camps What type of compensation if any are the victimized women due These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2 000 centers where as many as 200 000 Korean Filipina Taiwanese Indonesian Burmese Dutch Australian and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel Many of the women were teenagers some as young as fourteen To date the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers *A Story Book of Science* Lydia Hoyt Farmer, 1886 **Homes Without Hands** John George Wood, 1875 *The Library Magazine*, 1885 **Frank Powderhorn** J. Sands, 1881 **The Biological Bulletin**, 1904 Vols 17 21 105 contain Annual reports of the Marine Biological Laboratory for 1907 08 1952 **The Common Buzzard** Sean Walls, Robert Kenward, 2020-01-23 Based on many years of personal research and a thorough knowledge of the European literature the authors provide an eminently readable account of the biology of the Common Buzzard Whatever your interests in birds I can recommend this book for its content of information and insight Professor Ian Newton OBE FRS FRSE Soaring majestically on thermals with broad wings raised the Common Buzzard is a familiar sight for many people across Eurasia In fact thanks to a remarkable ability to adapt to local conditions it is now one of the most abundant hawks in the world The Common Buzzard can exploit a variety of nest sites and has an eclectic diet that ranges from earthworms and voles to woodpigeons and even deer carcasses This is a species rich in paradoxes Why does a hawk evolved for hunting small

mammals thrive on invertebrates and carrion How can a raptor renowned for dramatic territorial displays occur at such high densities And why does such a large bird that can travel long distances spend so much time in small areas Sean Walls and Robert Kenward delve deep into the ecology of the Common Buzzard to provide answers to these questions and many more as well as examining the conservation conundrums raised by this bird Bringing together a wealth of research on the species origins feeding behaviour and breeding along with information on movement and survival from the authors own studies The Common Buzzard provides an invaluable insight into exactly what has enabled this marvellous raptor to return to old haunts to impress inspire and connect people with nature **The Country Home** ,1912 *Carnegie Institution of Washington Publication* ,1915 Coloration in Polistes Wilhelmine Marie Enteman,1904 **The Proceedings of the Entomological Society of London** Royal Entomological Society of London,1929 **Journal of the Department of Agriculture** ,1923 *The New Zealand Journal of Agriculture* ,1923 *American Ornithology for Home and School* Chester Albert Reed,1903 **American Ornithology** ,1903 **American Ornithology for the Home and School** ,1903 The Herons of Europe Claire Voisin,2010-10-30 Although the majority of the world s Herons live in the tropics and subtropics Europe is home to nine species some large some small some colonial some solitary breeders Highly specialized birds they exhibit many interesting differences in their behaviour and ecology and are a favourite group for many ornithologists Voisin begins her book with a general description of the family before going on to treat each species in more detail The species accounts summarize such topics as field characters distribution population size breeding and feeding ecology and behaviour Numerous figures and tables are accompanied by fine drawings of behaviour by P L Suiro and colour and black and white pictures of each species by Gunnar Brusewitz
