The Dead Room

Mark Twain

The Dead Room:

The Dead Room Heather Graham, 2007-04-01 A year ago archaeologist Leslie MacIntyre barely survived the explosion that took the life of her fiancé Matt Connolly. In the long months since she slowly comes to terms not only with her loss but with her unsettling new ability to communicate with ghosts, a dubious gift received in the wake of her own brush with death. Now she has returned to lower Manhattan's historic Hastings House, site of the explosion, to conquer her fears and investigate a newly discovered burial ground. In this place restless spirits hold the secrets not only of past injustice but of a very real and very contemporary conspiracy with deadly designs on the city's women, including Leslie herself. By night Matt visits her in dreams, warning her and offering clues to the truth, while by day she finds herself helped by and attracted to his flesh and blood cousin Joe. Torn by her feelings for both men, caught between the worlds of the living and the dead, Leslie struggles against the encroaching danger that threatens to overcome her. As she is drawn closer to the darkness at the heart of Hastings House, she must ultimately face the power of an evil mind alone in a place where not even the men she loves can save her.

The Dead Room Sasha Finch, *The Dead Room: A Novel of Horror*, *Sound, Silence, and the Thing That Listens Back* By Sasha Finch. When audio engineer Jack Foster buys a forgotten prototype reverb unit from the liquidation of a legendary 1980s recording bunker, he thinks he's scoring the deal of a lifetime. He wants vintage gear, not the mystery surrounding The Neon God, the New Wave band that vanished inside AlpenHohl Studio without leaving so much as a final track. He brings the Echo X into his home studio. That's when the trouble starts. The machine doesn't echo; rather, it remembers. A single tap turns into a whisper that shouldn't exist. A breath slides through the headphones with no source. The air grows heavy. The walls shift. And the decay dial moves on its own, climbing toward a place no human ear should ever reach. When a winter storm traps him in the house, Jack realizes the Echo X has opened a door. To a room that was sealed for a reason. A room that stores silence the way lungs store air. A room that grows stronger every time a sound is made. Something inside it listens. Something made of pressure and vibration. Something that has waited decades for a voice to finish the track it started. Jack must stay quiet while navigating a house that no longer behaves like a house, while a sound shadow stalks him through the dark, and while a long-dead band sings from a place deeper than any real bunker. If he threads the tape, the dead room will take him. If he refuses, it will find another way. In *The Dead Room* is a visceral, suffocating descent into sonic horror where the scariest thing isn't what you see; it's what you hear coming back that should never have been recorded in the first place.
