## **Situated Fathering:**

**Situated Fathering** William Marsiglio, Kevin Roy, Greer Litton Fox, 2005-07-28 When men act as parents they do so in diverse physical and social spaces imbued with symbolic meaning They father in the military overseas on the farm in dilapidated inner cities immersed in ethnic neighborhoods navigating idealized places of leisure where families go as stepfathers in spaces where physical dimensions and family meanings intersect as nonresident fathers managing less than ideal conditions rolling across the interstate as long haul truckers playing catch alongside the house managing precious family time in prison work release programs as participants in community fatherhood initiatives etc Until now family scholars had not explicitly theorized and focused on how physical space shapes fathers lives A distinct volume of theoretical and empirical research Situated Fathering addresses this oversight by proposing a new framework for studying how various contingencies of physical space in conjunction with social symbolic issues affect men s identities as fathers and their involvement with children Consistent with public interest in men s efforts to be there as providers and caregivers this book explores issues associated with the barriers and supports to involvement that are part of the physical and social environment Written largely for family scholars and students it emphasizes a future oriented perspective by outlining directions for theoretically guided research in specific often gendered fathering sites *Situated Fathering* William Marsiglio, Kevin Roy, Greer Litton Fox, 2005 Situated Fathering proposes a new theoretical framework for studying how various contingencies of physical space in conjunction with social symbolic issues affect men s identities as fathers and their involvement with children Written largely for family scholars and students by an interdisciplinary team of leading scholars this distinct volume of original research explores fathers in a wide range of physical and social spaces Contributors outline directions for theoretically guided research in specific often gendered fathering sites Visit our website for sample chapters **Men in the Lives of Young Children** Deborah Jones, Roy Evans, 2013-09-13 This book presents an international perspective on the involvement of men in the lives of young children across a range of differing contexts and from a number of disciplinary perspectives It takes as a starting point the importance of positive male engagement with young children so as to ensure their optimal development Past research has revealed however the complexity of studying these relationships and the barriers that exist in families society which impede the implementation of positive relationships This book is developed to use new research and educational thinking in order to explore the lived experiences of both fathers and men in edu care and in addition to considers what it is to be a man in the 21st century As such this work is pertinent timely and responsive to issues of concern to all those professionals policy makers and practitioners within education and family services and also to the public in general The central purpose of the book is to contribute to the debate around key issues connected to the ways in which men can develop secure professional and familial attachments to young children for whom they have a responsibility This book was published as a special issue of Early Child Development and Care *Fragmenting Fatherhood* Richard

Collier, Sally Sheldon, 2008-09 Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities Fragmenting Fatherhood provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced Fragmenting Fatherhood provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women s studies and gender studies
