space and place also hold that the converse is equally true that we have an impact on those spaces and places we inhabit or dwell within We make space our agencies our cultures our beliefs and values and understandings shape the macro and micro environments around us Just as much however those places we inhabit shape us causing us to adapt ourselves to them Children exist in spaces that are crafted for them by adults by parents by school administrators and teachers and as such their impact on space can be somewhat limited Space is made for them but certainly not to their own specifications or liking In children s literature spaces are often seen as noteworthy markers of a child s progression toward adulthood whether the space is Laura Ingalls little house or Harry Potter s Hogwarts For these characters movement through space is about growth and change about accepting the inevitability of growing up and the responsibility of the adulthood whether that be marriage and motherhood or vanquishing the most evil wizard of all time However what about juvenile series books whose central protagonists generally never grow or change The central character of these series usually a flat unchanging trope more than a fully realized fleshed out dynamic figure is a static creation Though characters like Nancy Drew and the Hardy Boys frequently move through different geographies they never change as characters In fact one could argue that the only dynamic that ever experiences any alteration in a series like Nancy Drew is setting Surely there is something significant about the relationship of series books to those spaces their protagonists inhabit This collection explores that relationship the dynamics between the controlled spaces of childhood and the variable spaces of juvenile series literature It shows that the unchanging series book characters demonstrate that their impact on space is far greater than its impact ever is on them reflecting an exercise in spatial authority that most children and even children s book heroes never quite experience
