**The Doolittle Raid** John Grehan,2020-03-30 On 1 April 1942 less than four months after the world had been stunned by the attack upon Pearl Harbor sixteen US aircraft took to the skies to exact retribution Their objective was not merely to attack Japan but to bomb its capital The people of Tokyo who had been told that their city was invulnerable from the air would be bombed and strafed and the shock waves from the raid would extend far beyond the explosions of the bombs The raid had first been suggested in January 1942 as the US was still reeling from Japan s preemptive strike against the US Pacific Fleet at Pearl Harbor The Americans were determined to fight back and fight back as quickly as possible The 17th Bomb Group Medium was chosen to provide the volunteers who would crew the sixteen specially modified North American B 25 bombers As it was not possible to reach Tokyo from any US land bases the bombers would have to fly from aircraft carriers but it was impossible for such large aircraft to land on a carrier the men had to volunteer for a one way ticket Led by Lieutenant Colonel Jimmy Doolittle the seventy one officers and 130 enlisted men embarked on the USS Hornet which was shielded by a large naval task force However the ships were spotted by a Japanese ship The decision was therefore made to take off before word of the task force s approach reached Tokyo even though the carrier was 170 miles further away from Japan than planned and in the knowledge that the B 25s would not have enough fuel to reach their intended landing places in China The raid was successful and the Japanese were savagely jolted out of their complacency Fifteen of the aircraft crash landed in or their crews baled out over China the sixteenth managed to reach the Soviet Union Only three men were killed on the raid with a further eight being taken prisoner by the Japanese three of whom were executed and one died of disease The full story of this remarkable operation of the men and machines involved is explored through this fascinating collection of images *The Doolittle Raid* Charles River Charles River Editors,2018-02-09 Includes pictures Explains the planning and training for the raid Includes accounts of the raid written by Doolittle and other survivors Includes a bibliography for further reading Includes a table of contents The Japanese people had been told they were invulnerable An attack on the Japanese homeland would cause confusion in the minds of the Japanese people and sow doubt about the reliability of their leaders There was a second and equally important psychological reason for this attack Americans badly needed a morale boost Jimmy Doolittle All Americans are familiar with the day that will live in infamy At 9 30 a m on Sunday December 7 1941 Pearl Harbor the advanced base of the United States Navy s Pacific Fleet was ablaze It had been smashed by aircraft launched by the carriers of the Imperial Japanese Navy All eight battleships had been sunk or badly damaged 350 aircraft had been knocked out and over 2 000 Americans lay dead Indelible images of the USS Arizona exploding and the USS Oklahoma capsizing and floating upside down have been ingrained in the American conscience ever since In less than an hour and a half the Japanese had almost wiped out America s entire naval presence in the Pacific The Americans would turn the war in the Pacific around in the middle of 1942 but in the wake of Pearl Harbor and the Japanese invasion of the Philippines the

country was in desperate need of a morale boost and it would come in the form of the Doolittle Raid. In part to show that the Japanese were not invincible and in part to reassure the American public that the nation would not lose the war, the Doolittle Raid included both Army and Navy units that launched 16 land-based medium bombers from an aircraft carrier, a feat that was the first of its kind but also one involving a great deal of risk. Getting the bombers and carriers in place to execute the mission involved much strategic planning and cooperation within the American military, and had it failed, it could have dealt a serious blow to the Americans' Pacific presence due to the nation's limited resources in that theater. As if getting in position wasn't challenging enough, the raid was never designed to include a round trip back to the carrier. Given the size of the bombers, the planes were unable to land back on the USS Hornet, so the plan was to have them fly over Japan and ditch in China after bombing Tokyo. While most of the crew would survive the mission, a few died during the raid, all of the planes were lost, and Japanese search parties eventually captured a number of Americans and executed three of them. One of the crews landed in the Soviet Union and would end up being interned there for a year. From a tactical standpoint, the raid accomplished nothing of note, and Doolittle actually thought he would be punished for the results, but the Doolittle Raid served its purpose of boosting American resolve and demonstrating to the Japanese that they could be attacked at home as well. Furthermore, the Doolittle Raid showed the importance of air power in the war. It helped convince military planners of the power of a strong air force that could not only shift the balance of battles but could also hit military industrial areas from long range and thus cripple a nation's war-making abilities. The Japanese would take the capabilities of airplanes into account when formulating how to defend their empire, and it would help compel their leaders to make decisions such as the ones that led to the decisive Battle of Midway later in 1942. The Doolittle Raid chronicles the history and legacy of one of World War II's most audacious air raids. Along with pictures of important people, places, and events, you will learn about the Doolittle Raid like never before in no time at all.

**Target Tokyo** James M. Scott, 2015-03-31. Finalist for the 2016 Pulitzer Prize in History. Like Lauren Hillebrand's *Unbroken*, *Target Tokyo* brings to life an indelible era. Ben Cosgrove, *The Daily Beast*. On April 18, 1942, sixteen U.S. Army bombers under the command of daredevil pilot Jimmy Doolittle lifted off from the deck of the USS Hornet on a one-way mission to pummel Japan's factories, refineries, and dockyards in retaliation for their attack on Pearl Harbor. The raid buoyed America's morale and prompted an ill-fated Japanese attempt to seize Midway that turned the tide of the war. But it came at a horrific cost: an estimated 250,000 Chinese died in retaliation by the Japanese. Deeply researched and brilliantly written, *Target Tokyo* has been hailed as the definitive account of one of America's most daring military operations.

**The Doolittle Raid** Carroll V. Glines, 1990. In April 1942, President Roosevelt urged the military high command to prepare a devastating carrier launch raid against the Japanese home islands. And the only person who dared to lead the mission was the best-known risk taker in the U.S. Air Force: Lieutenant Colonel James H. Doolittle.

Stohlmann,2000-02-01 From the moment the first bomb fell on Tokyo the Doolittle Raid had no chance of being a failure because the combination of history and memory would not allow such an assessment Americans needed something that could validate their hopes of an eventual victory Being the first positive news America had in the war the public relished in the bombing of Tokyo Newspapers books and films sensationalized the mission and by the time the Second World War ended the raid was rooted in America s collective memory From 1945 to 1966 the perceptions of the Doolittle Raid stabilized The Raiders incorporated as an organization and held annual reunions Literature created a much more complete story of the raid but as time passed America s memory of the mission faded Although the living memory continued to fade America s interest in military history and
