Six Memos For The Next Millenium:

Six Memos for the Next Millennium Italo Calvino, 1988 One of the world's best storytellers Italo Calvino *Invisible Cities* pinpoints for future generations the universal values for literature Here are his works methods intentions and hopes

Six Memos for the Next Millennium Italo Calvino, 2009 Translated by Patrick Creagh A rather wonderful little book full of wit and erudition Daily Telegraph Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86 but they were left unfinished at his death The surviving drafts explore of the concepts of Lightness Quickness Multiplicity Exactitude and Visibility Constancy was to be the sixth in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale With his customary imagination and grace he sought to define the virtues of the great literature of the past in order to shape the values of the future This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed

Six Memos for the Next Millennium Italo Calvino, 1992-01 Six Memos for the Millennium is a collection of five lectures Italo Calvino was about to deliver at the time of his death Here is his legacy to us the universal values he pinpoints become the watchwords for our appreciation of Calvino himself What should be cherished in literature Calvino devotes one lecture or memo to the reader to each of five indispensable qualities lightness quickness exactitude visibility and multiplicity A sixth lecture on consistency was never committed to paper and we are left only to ponder the possibilities With this book he gives us the most eloquent defense of literature written in the twentieth century a fitting gift for the next millennium

Six Memos for the Next Millennium Italo Calvino, 1993-08-01
Transmissibility Jae Emerling, 2023-08-17 This book examines transmissibility to remind us why the vitality and epistemic significance of an artwork is anachronistic and futural Transmissibility Writing Aesthetic History performs a transdisciplinary philosophy of aesthetic history via the work of Gilles Deleuze and Félix Guattari Cy Twombly Marina Abramovi Paul Celan Cecil Taylor Italo Calvino Candida Höfer and others by focusing on the artistic and historiographic labor that differentiates artworks from other modes of creation

The Playfulness of Gerard Manley Hopkins Joseph J. Feeney, 2016-03-03
Renowned Hopkins expert Joseph J. Feeney SJ offers a fresh take on Gerard Manley Hopkins which shakes our understanding of his poetry and his life and points towards the next phase in Hopkins studies While affirming the received view of Hopkins as a major poet of nature religion and psychology Feeney finds a pervasive rarely noticed playfulness by employing both the theory of play and close reading of his texts This new Hopkins lived a playful life from childhood till death as a student who loved puns and jokes and wrote parodies comic verse and satires as a Jesuit who played and organized games and had a gift for mimicry and most significantly as a poet and prose stylist who rewards readers with unexpected displays of whimsy and incongruity even strikingly in *The Wreck of the Deutschland* *The Windhover* and the *Terrible Sonnets* Feeney convincingly argues that Hopkins's distinctive playfulness is inextricably bound to his sense of fun his creativity his style and his competitiveness with other poets In unexpected images quirky metaphors strange perspectives puns coinages twisted syntax

wordmusic and sprung rhythm we see his playful streak burst forth to adorn those works critics consider his most brilliant No one who absorbs this book s radical readings will ever see and hear Hopkins s poetry and prose quite the way they used to

Copenhagen 2013 - 100 Years On: Origins, Innovations and Controversies Emilija Kiehl,2015-12-25 The Nineteenth Triannual Congress of the International Association for Analytical Psychology IAAP was held in Copenhagen Denmark from August 18 23 2013 Copenhagen 2013 100 years on Origins Innovations and Controversies was the theme honoring the psychological transformations experienced by C G Jung beginning in 1913 while also reflecting upon the evolving world and Jungian Community a century later

First Pages Giancarlo Maiorino,2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book s spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* *First Pages* proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a fa ade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation

Calvino's Fictions Kathryn Hume,1992 Throughout the novels and stories The cosmicomical tales with their focus on science are seen as crucial to the development of the symbolic mindscapes that made Calvino a major international writer He died before arriving at any satisfactory solution to the problems of relating the I to the not I but Hume derives from his later works a philosophy based on the creation of likenesses of internal microcosms that permit us to mirror the macrocosm These interior
