knowledge therefore enhances an organization's position in the marketplace. How do we create new knowledge? We don't do it by learning what is already known. The learning organization is already past. Instead, we do it by inquiring, which is a method of bringing tacit knowledge to the forefront of awareness. The inquiring organization surfaces tacit knowledge, which is what its employees bring to the table: their background, education, experience, character, and judgment, and transforms that knowledge into new explicit knowledge that can be transferred from one employee to another through conversation. That is true knowledge creation, and this book provides the tools, skills, techniques, and processes for executives and professionals in any field to accomplish this task in today's fluid environment.

Transforming Tacit Knowledge Into Explicit Knowledge for Delivering

Business Goals Nisha Kainth, Sandeep Vij, 2019. Knowledge as a resource provides a competitive edge to firms and ensures organizational success. This conceptual paper endeavors to study the importance of knowledge management in organizations, highlighting the need for capturing tacit as well as explicit knowledge. The paper underlines the significance of vast storehouse of covert knowledge possessed by knowledge workers gained through their own learning based on observation and experience. Based on extant knowledge management literature, the paper postulates different mechanisms to codify and convert the tacit knowledge into explicit knowledge. It also elaborates the enablers and the barriers in the way of conversion of tacit knowledge into explicit knowledge. The study suggests that conversion of tacit knowledge into explicit knowledge can be ensured by enhancing the knowledge management orientation of the firm. The study will help the practicing managers in capturing the tacit as well as the explicit knowledge for delivering business goals like sustainable competitive advantage and superior business performance.

Enabling Knowledge Creation Georg von Krogh, Kazuo Ichijo, Ikujiro Nonaka, 2000-06-01 When The Knowledge Creating Company OUP nearly 40 000 copies sold appeared it was hailed as a landmark work in the field of knowledge management Now Enabling Knowledge Creation ventures even further into this all important territory showing how firms can generate and nurture ideas by using the concepts introduced in the first book Weaving together lessons from such international leaders as Siemens Unilever Skandia and Sony along with their own first hand consulting experiences the authors introduce knowledge enabling the overall set of organizational activities that

promote knowledge creation and demonstrate its power to transform an organization's knowledge into value-creating actions. They describe the five key knowledge enablers and outline what it takes to instill a knowledge vision, manage conversations, mobilize knowledge activists, create the right context for knowledge creation, and globalize local knowledge. The authors stress that knowledge creation must be more than the exclusive purview of one individual or designated knowledge officer. Indeed, it demands new roles and responsibilities for everyone in the organization, from the elite in the executive suite to the frontline workers on the shop floor. Whether an activist, a caring expert, or a corporate epistemologist who focuses on the theory of knowledge itself, everyone in an organization has a vital role to play in making care an integral part of the everyday experience in supporting, nurturing, and encouraging microcommunities of innovation and fun, and in creating a shared space where knowledge is created, exchanged, and used for sustained competitive advantage. This much-anticipated sequel puts practical tools into the hands of managers and executives who are struggling to unleash the power of knowledge in their organization.
