Tagged for Terror , Boko Haram's Terrorism and the Nigerian State Olumuyiwa Temitope Faluyi, Sultan Khan, Adeoye O. Akinola, 2019-03-08 This book assesses the effectiveness of Nigeria's counterterrorist policies against Boko Haram. It takes a critical review of the interventionist strategies adopted by the Nigerian government, highlights the motivations behind the choice of strategies, and proffers a deeper understanding of the factors responsible for the state's inability thus far to rid the country of terrorism. Specifically, it evaluates the NACTEST policy framework that guides the Nigerian state's counterterrorist strategies, which contains both hard and soft power approaches. Adopting historical and case study approaches, which put the Nigerian state and occurrences of violent conflict in context, it takes cognizance of the politics of ethno-religious diversity, which reinforce violent conflicts among groups and against the state, and reviews the socio-economic and political realities that led to the emergence and sustenance of Boko Haram. The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection. This book is appropriate for researchers and students interested in African politics, conflict, security, peace studies, terrorism, and counterterrorism, as well as policy makers and government departments dealing with terrorism and counterterrorism.

War on Terror, Inc Solomon Hughes, 2007 Surveying the activities of private contractors in the provision of frontline mercenaries, security services, guarding key installations and VIPs, prisons, and law enforcement, media management, and intelligence gathering at home and abroad, Hughes demonstrated that the private sector and its army of lobbyists and salesmen are continuously lowering the practical and moral barriers to interventions of every kind, from torture and imprisonment without trial to blanket surveillance of the civilian population and to outright war. Meanwhile, the state is evermore evasive when it comes to taking responsibility for the practices it authorizes via agreements drawn up under a veil of commercial privacy and remains as inept as it has ever been at procuring efficiency and value for money from its contracts.

World Terrorism: Diagnosis And Path To Global Peace Taiwo, Victor Olu, 2015-02-07 The author posits that there is no common definition of terrorism currently afflicting Nigeria, Africa, and the wider world. He seeks to find the root causes, which he defines as religion, misgovernance, and the oppression by the powerful of the less powerful countries. He considers religion within four areas: Christianity, Islam, traditional religions, and other foreign religions. The fourteen chapters cover Cause and Effect, the Rescue in Religion, God's Incomprehensibility and Enigmatism, Further Explorations, God's Manual Ordinances, and their Authenticity in Examination, Who is Liable, God or Man, Evolutions of Christianity and Islam, Scriptural Discrepancies, and their Inherent Hazards. God must be Crazy, Terror on the Spree, Africa in Periscope, Facts and Figures, Nigeria: A Case Study, Israeli-Palestine Conflict, My Proffered Elixir.

Christian Ethics: Non-violent Resistance Approach to Boko Haram Anthony Okechukwu Nnadi PhD STD, 2024-04-10 The book takes a practical look at the complexity of the nature of violence, terrorism, in Nigeria, in the light of the Catholic social teaching on non-violent resistance. With the critical analyses of some policies, strategies used to

address the problem of Boko Haram terrorism in Nigeria the book explores a range of questions Does severe punishment work effectively as deterrence against possible involvement in terrorism Does applying lex talionis reduce or exacerbate recidivism What are the right mechanisms to stop terrorism violence in Nigeria This book is convinced that nothing is resolved through violence and that violence begets violence alluding that responding to terror with terror is a retaliatory method that is self defeating On the whole it has been noted that the principle or law of retaliation Lex Talionis alone cannot stop armed insurgency in Nigeria thus the book suggests non violent resistance as the best way to address terrorism and violent conflicts Non violent resistance does not mean condoning violent attacks against innocent civilians Based on the Christian ethical principles of the dignity of the human person and justice this book explicitly declares that the killing of innocent civilians is absolutely immoral The book explores the use of the term Islamic terrorism and the Islamic ethics of justice peace and nonviolence and underlines that the Islamic core moral principles in no way support terrorism While stating that terrorism is morally wrong this book states that the causes of terrorism must be addressed with justice and fairness On this basis the book insists on critically investigating the following religious extremism corruption bigotry in politics and religion the glaring sense of apathy among the political elite to the suffering of the oppressed and the mismanagement and abuse of political positions or the nation s resources for selfish interest There must be a rethink aimed at finding the best way to build an ethical society a framework for justice and peace

Civil Rights and Security David Dyzenhaus, 2017-05-15 This collection of previously published work on security and rights focuses on the appropriate relationship between rights and what we can think of as counterterrorism policy Such a focus might seem both necessary because of 9 11 and unfortunate because there are other causes of insecurity besides terrorism However the intensity of the war on terror has created an ongoing surge of

scholarship on the relationship between security and human rights that either has indirect implications for debates about security where terrorism is not in issue or has directly led to an attempt to rethink more generally the idea of security and its relationship to rights
