**Teaching and Targets** John Blanchard, 2013-01-11 Teachers school managers and governors are now more publicly accountable than ever. They are expected to know how their school is performing and how to improve that performance. Target setting is a key tool in the drive to raise standards and has been implemented at every level of the education system. This book explores target setting from both the teacher's and pupil's viewpoint and investigates the role of assessment in successful teaching and learning. It shows that it is possible to develop a whole school target setting policy co-ordinating the use of targets for individual pupils, subject specific departments and teams and whole school improvement plans. In this way targets can be used positively for the benefit of pupils, teachers and managers. This book will be important reading for headteachers, senior management teams, assessment co-ordinators and subject leaders in schools and will also be of interest to governors and LEA advisors.
