Teaching For Equity And Diversity:

Teaching Through Challenges for Equity, Diversity, and Inclusion (EDI) Stephanie L. Burrell Storms, Stephanie L. Burrell, Sarah K. Donovan, Theodora P. Williams, 2020 Colleges and universities cannot ignore the increasingly diverse student population in their classrooms and how a focus on equity diversity and inclusion across disciplines trains students in the intercultural awareness they will need in competitive job markets Yet while faculty may be aware of a need to understand EDI goals in relationship to their disciplines and institutions may support EDI in theory the onus of pedagogical training in EDI often falls on individual faculty This book was written by faculty and administrators for educators who value the goals of EDI and seek an intellectual community to help them develop their practice Important to this book is an honest discussion of common challenges faculty may face when they engage in this difficult work and effective strategies for addressing those challenges The chapters are grouped according to six different themes respect for divergent learning styles inclusion and exclusion technology and social action affective considerations reflection for critical consciousness and safe spaces and resistance

Equity and Inclusion in Higher Education Rita Kumar, Brenda Refaei, 2021 AMERICANS PERCEPTION OF COLLEGE STUDENTS does not correlate with the reality of the rich diversity seen on university campuses Over 60% of Americans believe the average age of a college student is 20 years old but in fact it is 26.4 years old Demographics in the classroom are shifting and instructors bear a responsibility to adjust their teaching style and curriculum to be inclusive for all students Equity and Inclusion in Higher Education Strategies for Teaching edited by Rita Kumar and Brenda Refaei details the necessity for an inclusive curriculum with examples of discipline specific activities and modules The intersectionality of race age socioeconomic status and ability all embody the diversity college instructors encounter in their classrooms Through the chapters in this book the contributors make apparent the hidden curriculum which is taught implicitly instead of explicitly The editors focus on learner centered environments and accessibility of classroom materials for traditionally marginalized students a critical part of the labor needed to create an inclusive curriculum This text provides instructors with resources to create equity based learning environments It challenges instructors to see beyond Eurocentric curricula and expand their pedagogy to include intercultural competence The contributors challenge the student instructor dichotomy and embrace collaboration between the two to construct a curriculum that fits all students needs The resources and examples in this book demonstrate the importance of inclusion and equity in the classroom An open access companion site provides examples and tools from the editors and contributing authors and allows for readers to add materials from their own classrooms This book and companion site allow instructors to begin intentional practice of an inclusive curriculum and implement changes to promote respect for diversity

Breaking Down Silos for Equity, Diversity, and Inclusion (EDI) Stephanie L. Burrell Storms, Sarah K. Donovan, Theodora P. Williams, 2020-02-19 Equity diversity and inclusion EDI goals have traditionally been seen as either an effort to be managed by the administration or as something a faculty member could

choose or not to focus on In the twenty first century EDI goals are increasingly front and center across disciplines as educators prepare students for success in a diverse world It is in this milieu that this book was written Each chapter in this book is designed for use by instructors and administrators in higher education who believe that the goals of EDI should be integrated into the classroom experience The chapters are grouped around five central themes that challenge the structure of a traditional classroom in order to promote goals related to EDI faculty collaboration creative approaches to faculty and student resistance to EDI goals institution wide initiatives community engagement and the use of first person autobiography and storytelling in the classroom
