Telling Tears in the English Renaissance Marjory E. Lange, 2021-12-06 Tears and weeping are at once human universals and socially constrained phenomena This volume explores the interface between those two viewpoints by examining medical literature sermons and lyric poetry of the 16th and 17th centuries to see how dominant paradigms regarded who could who must and who must not weep These paradigms shifted in some cases radically during these centuries Without a clear understanding of how the Renaissance read tears it is difficult to avoid using our own preconceptions often quite different and very misleading There are five chapters one on medical and scientific material two on sermons and two on different types of lyric
