The Anatomy Lesson:

The Anatomy Lesson Nina Siegal, 2014 Set in seventeenth century Holland an engrossing historical novel that brilliantly imagines the complex story behind one of Rembrandt's most famous paintings commissioned by a prominent Amsterdam medical guild The Anatomical Lesson of Dr Nicolaes Tulp was one of Rembrandt's first paintings to gain public notice The novel opens on the morning of the medical dissection and as they prepare for that evening's big event it follows several characters a one handed coat thief called Aris the Kid who is awaiting his turn at the gallows the twenty six year old Dutch master himself who feels a shade uneasy about this assignment Jan Fetchet a curio collector who also moonlights as an acquirer of medical cadavers Flora the woman pregnant with Aris's child who hopes to collect her lover's body for a Christian burial before it's too late Rene Descartes who attended the dissection in the course of his quest to understand where the human soul resides and Pia a contemporary art historian who is examining the painting in the future As the story builds to its dramatic and inevitable conclusion the events that transpire throughout the day sway Rembrandt to change his initial composition in a fundamental way Bringing to life the vivid world of Amsterdam in 1632 *The Anatomy Lesson* offers a rich slice of history and a textured story by a masterful young writer

The Anatomy Lesson Nina Siegal, 2014-12-02 A single day in Amsterdam 1632 The Surgeons Guild has commissioned a young artist named Rembrandt to paint Dr Nicolaes Tulp as he performs a medical dissection In the swirl of anticipation and intrigue surrounding the event we meet an extraordinary constellation of men and women whose lives hinge in some way on Dr Tulp's anatomy lesson There is Aris the Kid the condemned coat thief whose body is to be used for the dissection Flora his pregnant lover Jan Fetchet the curio dealer who acquires corpses for the doctor's work the great Ren Descartes who will attend the dissection in his quest to understand where the human soul resides and the Dutch master himself who feels a shade uneasy about this assignment As the story builds to its dramatic conclusion circumstances conspire to produce a famous painting and an immortal painter Vividly rendered masterfully written *The Anatomy Lesson* is a story of mind and body death and love and redemptive power of art

wondering his dependence on painkillers grows into an addiction to vodka marijuana and Percodan The Anatomy Lesson is a great comedy of illness written in what the English critic Hermione Lee has described as a manner at once brash and thoughtful lyrical and wry which projects through comic expostulations and confessions a knowing humane authority The Anatomy Lesson provides some of the funniest scenes in all of Roth's fiction as well as some of the fiercest *New York Magazine*, 1983-10-31 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *The Anatomy Lesson* Evan S. Practical Art ,1924 [Birth of the State](#) Charlotte Epstein,2020-11-12 This book uses the body to peel back the layers of time and taken for granted ideas about the two defining political forms of modernity the state and the subject of rights It traces under the lens of the body how the state and the subject mutually constituted each other all the way down by going all the way back to their original crafting in the seventeenth century It considers two revolutions The first scientific threw humanity out of the centre of the universe and transformed the very meanings of matter space and the body while the second legal and political re established humans as the centre point of the framework of modern rights The book analyses the fundamental rights to security liberty and property respectively as the initial knots where the state subject relation was first sealed It develops three arguments that the body served to naturalise security to individualise liberty and to privatise property Covering a wide range of materials from early

modern Dutch painting to the canon of English political thought the Anglo Scottish legal struggles of naturalization and medical and religious practices it shows both how the body has operated as history s great naturaliser and how it can be mobilised instead as a critical tool that lays bare the deeply racialised and gendered constructions that made the state and the subject of rights The book returns to the origins of constructivist and constitutive theorising to reclaim their radical and critical potential
