In Search of the Dark Ages Michael Wood, 2015-05-14 Updated with the latest archaeological research, new chapters on the most influential yet widely unrecognized people of the British Isles. *In Search of the Dark Ages* illuminates the fascinating and mysterious centuries between the Romans and the Norman Conquest of 1066. In this new edition, Michael Wood vividly conjures some of the most important people in British history, such as Hadrian, a Libyan refugee from the Arab conquests and arguably the most important person of African origin in British history, to Queen Boadicea, the leader of a terrible war of resistance against the Romans. Here, too, are the Saxon, Viking, and Norman kings who laid the political foundations of England: Offa of Mercia, Alfred the Great, Athelstan, and William the

Conqueror whose victory at Hastings in 1066 marked the end of Anglo Saxon England Reflecting the latest historical textual and archaeological research this revised and updated edition of Michael Wood s classic book overturns preconceptions of the Dark Ages as a shadowy and brutal era showing them to be a richly exciting and formative period in the history of Britain
