The Jazz Text:

The Jazz Text Charles Nanry, Edward Berger, 1987-08 Jazz Text Charles O. Hartman, 1991 American arts since World War II have drawn power and mystery from the ideas of voice and of improvisation These unite in modern jazz which is America's special contribution to world culture But American poetry too has been vitally motivated by the example of jazz musicians and their ideas of personal sound and spontaneous composition Working from this crucial connection between arts Charles Hartman shows how music like that of Lee Konitz and Ornette Coleman and poems by Robert Creeley Michael Harper David Antin Philip Levine Ai and Jackson Mac Low illuminate each other Juxtaposing musicians and poets he also explores the equivocal boundary between oral and written art His study then extends to songs by popular artists such as Joni Mitchell Tom Waits and the Roches whose work combines words and music directly and literalizes the idea of voice Applying close reading techniques to jazz and adapting Bakhtin's theory of dialogue Hartman confronts the tangled issues of improvisation and composition originality authenticity disguise and recognition He explores the assumptions incorporated and questioned by voice with regard to self and identity and their place in the work of art and the world **The Jazz**

Language: A Theory Text for Jazz Composition and Improvisation Dan Haerle, 1980 This text presents all of the materials commonly used by the jazz musician in a logical order dictated both by complexity and need The book is not intended to be either an arranging or improvisation text but a pedagogical reference providing the information musicians need to pursue any activity they wish **Marginalized** Casey Kayser, 2021-08-23 Winner of the 2021 Eudora Welty Prize In contrast to other literary genres drama has received little attention in southern studies and women playwrights in general receive less recognition than their male counterparts In *Marginalized Southern Women Playwrights Confront Race Region and Gender* author Casey Kayser addresses these gaps by examining the work of southern women playwrights making the argument that representations of the American South on stage are complicated by difficulties of identity genre and region Through analysis of the dramatic texts the rhetoric of reviews of productions as well as what the playwrights themselves have said about their plays and productions Kayser delineates these challenges and argues that playwrights draw on various conscious strategies in response These strategies evident in the work of such playwrights as Pearl Cleage Sandra Deer Lillian Hellman Beth Henley Marsha Norman and Shay Youngblood provide them with the opportunity to lead audiences to reconsider monolithic understandings of northern and southern regions and ultimately create new visions of the South

Leon Forrest John G. Cawelti, 1997 *Leon Forrest: Introductions and Interpretations* combines biography and various methods of critical analysis to interpret the work of this important African American novelist and essayist who critics have compared to Joyce Faulkner and Tolstoy Highly praised by Saul Bellow Ralph Ellison and Toni Morrison Forrest's four novels present a remarkably rich and engaging view of contemporary African American urban culture and its roots in the southern past The book includes a general introduction which surveys Forrest's life and presents an interpretation of the unity of his

fiction as well as individual essays offering different interpretations of Forrest's four major novels, three interviews with the writer, and a detailed chronology and bibliography. **Liberating Voices** Gayl Jones, 1991. The powerful novelist here turns penetrating critic, giving us in a lively style both trenchant literary analysis and fresh insight on the art of writing. When African American writers began to trust the literary possibilities of their own verbal and musical creations, writes Gayl Jones, they began to transform the European and European American models and to gain greater artistic sovereignty. The vitality of African American literature derives from its incorporation of traditional oral forms: folktales, riddles, idiom, jazz rhythms, spirituals, and blues. Jones traces the development of this literature as African American writers, celebrating their oral heritage, developed distinctive literary forms. The twentieth century saw a new confidence and deliberateness in African American work: the move from surface use of dialect to articulation of a genuine black voice; the move from blacks portrayed for a white audience to characterization relieved of the need to justify; innovative writing, such as Charles Waddell Chesnutt's depiction of black folk culture, Langston Hughes's poetic use of blues, and Amiri Baraka's recreation of the short story as a jazz piece, redefined Western literary tradition. For Jones, literary technique is never far removed from its social and political implications. She documents how literary form is inherently and intensely national and shows how the European monopoly on acceptable forms for literary art stifled American writers, both black and white. Jones is especially eloquent in describing the dilemma of the African American writers to write from their roots yet retain a universal voice to merge the power and fluidity of oral tradition with the structure needed for written presentation. With this work, Gayl Jones has added a new dimension to African American literary history. **New Essays on the African American Novel** L.

King, Linda F. Selzer, 2016-04-30. This collection contributes to scholarly discussions about the African American novel as a literary form. Essays respond to the general question: what has been the impact of the African American vernacular tradition, from the spirituals, blues, gospel, and jazz to hip hop, on the structure and style of the modern African American novel.

Interart Poetics, 2025-02-03. In this anthology are gathered 28 essays devoted to the interrelations of the arts and media. They present together the current state of the emerging field of Interart Studies. The contributors: Stephen Greenblatt, Claus Claver, Erika Fischer-Lichte, John Neubauer, Steven Paul Scher, Walter Bernhart, Ulrich Weisstein, Eric T. Haskell, Eric Vos, Thomas Elsaesser, among others, are leading international scholars in the fields of Art History, Literary Criticism, Musicology, Film, Theatre, and Media Studies. In challenging ways, they promote interdisciplinary strategies in the study of the traditional arts, dance, literature, music, painting, sculpture, theatre, etc., as well as of the modern media: film, TV, video, computer-generated arts, etc. The essays, collected, engage in a broad perspective of topics approached from varying theoretical, methodological, or ideological viewpoints. No single thread runs through the diversely conceived essays, yet it is evident that what all contributors appear to envision is the importance today of investigations into the problems of what might be called the interart or intermedia discourse. Aimed at university teachers, scholars, students, and even artists, this book will meet the

demands from those interested in modern modes of interart and intermedia analysis **The Oxford Handbook of Modern and Contemporary American Poetry** Cary Nelson,2012 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape The Jazz Image Lee Tanner,2006-11 Covering six decades of performers from Louis Armstrong and Duke Ellington to John Coltrane and Miles Davis this unique collection is as much a comprehensive catalogue of jazz greats as it is a salute to the photographers who captured them Journal of Jazz Studies ,1978 Includes discographies
