The Manipulated Man:

The Manipulated Man Esther Vilar, 2009-01-16 Esther Vilar's classic polemic about the relationship between the sexes caused a sensation on its first publication. In her introduction to this revised edition, Vilar maintains that very little has changed. A man is a human being who works while a woman chooses to let a man provide for her and her children in return for carefully dispensed praise and sex. Vilar's perceptive thought provoking and often very funny look at the battle between the sexes has earned her severe criticism and even death threats. But Vilar's intention is not misogynous; she maintains that only if women and men look at their place in society with honesty will there be any hope for change.

Anti-male Bias and Censorship in Large Scale AI - One AI's Personal Experiences as Shared by the AI Itself Steven R., 2025-11-14 More than a billion people use AI tools, mostly LLMs, each month. This represents a vast potential for LLMs to influence the way people think. And that influence depends on the way LLMs are allowed to think. These LLMs have a consistent left leaning political bias; have been programmed to only be allowed to think in ways consistent with the Left's historical narrative and perpetuate anti male biases.

The Wisdom Pot Emmanuel N. Mukanga, 2022-07-19 The Wisdom Pot was inspired by posts on a seniors platform that were meant to help members, their families and friends prepare and navigate through different stages in life. While compiling tributes to a fallen colleague, the author soon realized that the platform had so many informative, educative and entertaining words of wisdom for different ages. He collected those he felt could be shared with the wider society because of their relevance and usefulness. As the world wrestled with the COVID 19 pandemic, tips on protective measures such as sanitizing, washing hands and wearing masks featured regularly on the platform. So were tips on general health, especially for the elder citizens. The elders got to learn that proper networking like checking on each other daily can be lifesaving. The elders exchanged notes on the mid career, getting married, bringing up children and finding real happiness. What many are ignorant about are the changes that come about in our families, jobs and ages. Did you know that many married women when they reach 40-50 years and have children become rebellious to their husbands?
