*The Ant Realm* Ross E. Hutchins,1967      **The Life and Times of the Ant** Charles Micucci,2006-04-17 Not mighty in size but mighty in resourcefulness and industry the ant has crawled the earth since prehistoric times It has dwelt in rainforest tree trunks and acorns of oak trees beneath logs and under sidewalks It has protected forests by capturing insects cleared weeds away from acacia trees and by growing gardens has released important nutrients into the soil Seed lifters dirt diggers social beings ants have the most advanced brain of all insects So watch where you step especially on a warm day a small but mighty ant may be underfoot      Little Ants Adventures. Stories for kids Valerio Larcheni,2025-03-12 On the edge of the forest there stands an anthill This is the home of Irra and Frira two little ant siblings with curious eyes and hearts brimming with mischief Irra the ant girl with her long red pigtailed and her face sprinkled with freckles is the dreamer of the duo Her imagination can conjure entire kingdoms hidden beneath dandelions Frira ant boy her steadfast companion the ant boy on the other hand is a thinker always calculating always planning Together they are unstoppable      **The Ant's Gift** Shahrokh Meskoob,2021-07-09 Shahrokh Meskoob was one of Iran's leading intellectuals and a preeminent scholar of Persian literary traditions language and cultural identity In *The Ant's Gift* Meskoob applies his insight and considerable analytical skills to the *Shahnameh* the national epic of Iran completed in 1010 by the poet Abul Qasim Ferdowsi Tracing Iran's history from its first mythical king to the fall of the Sasanian dynasty the *Shahnameh* includes myths romance history and political theory Meskoob sheds new light on this seminal work of Persian culture identifying the story as at once a historical and poetic work While previous criticism of the *Shahnameh* has focused on its linguistic importance and its role in Iranian nationalism Meskoob draws attention to the work's pre-Islamic cultural origins      **The Instantaneous Eternal Expansion** Michael Daugherty,2016-02-12 I As if divinely aided It has been two months since *The Superior Scholar* ended As promised to my readers I will be uploading a new book today titled *Danzhu* book number 1943704 Those who have read Xiaodao's first two books know that *Royal Entertainment Guide* and *Superior Scholar* are two different styles In this book Xiaodao wants to try a new style What kind of subject matter should be chosen with what kind of writing style What remains unchanged is Xiaodao's seriousness and persistence      "And So Ad Infinitum" (The Life of the Insects) Karel Čapek,Josef Čapek,1924

**Ride of the Second Horseman** Robert L. O'Connell,1997-10-23 Accurst be he that first invented war wrote Christopher Marlowe a declaration that most of us would take as a literary not literal construction But in this sweeping overview of the rise of civilization Robert O'Connell finds that war is indeed an invention an institution that arose due to very specific historical circumstances an institution that now verges on extinction In *Ride of the Second Horseman* O'Connell probes the distant human past to show how and why war arose He begins with a definition that distinguishes between war and mere feuding war involves group rather than individual issues political or economic goals and direction by some governmental structure carried out with the intention of lasting results With this definition he finds that ants are the only other creatures

that conduct it battling other colonies for territory and slaves But ants unlike humans are driven by their genes in humans changes in our culture and subsistence patterns not our genetic hardware brought the rise of organized warfare O Connell draws on anthropology and archeology to locate the rise of war sometime after the human transition from nomadic hunting and gathering to agriculture when society split between farmers and pastoralists Around 5500 BC these pastoralists initiated the birth of war with raids on Middle Eastern agricultural settlements The farmers responded by ringing their villages with walls setting off a process of further social development intensified combat and ultimately the rise of complex urban societies dependent upon warfare to help stabilize what amounted to highly volatile population structures beset by frequent bouts of famine and epidemic disease In times of overpopulation the armies either conquered new lands or self destructed leaving fewer mouths to feed In times of underpopulation slaves were taken to provide labor O Connell explores the histories of the civilizations of ancient Sumeria Egypt Assyria China and the New World showing how war came to each and how it adapted to varying circumstances On the other hand societies based on trade employed war much more selectively and pragmatically Thus Minoan Crete long protected from marauding pastoralists developed a wealthy mercantile society marked by unmilitaristic attitudes equality between men and women and a relative absence of class distinctions In Assyria by contrast war came to be an end in itself in a culture dominated by male warriors Despite the violence in the world today O Connell finds reason for hope The industrial revolution broke the old patterns of subsistence war no longer serves the demographic purpose it once did Fascinating and provocative *Ride of the Second Horseman* offers a far reaching tour of human history that suggests the age old cycle of war may now be near its end
