The Invasion From Mars:

The Invasion From Mars , On Halloween night 1938 Orson Welles broadcast a radio adaptation of the H G Wells fantasy *The War of the Worlds* What listeners heard sounded so realistic that at least a million were frightened by word that strange creatures from Mars had landed in central New Jersey and were unleashing a deadly assault Several thousand were so terrified they ran into the streets drove away in their cars or called the police for information about how to escape Why did so many panic when the circumstances reported were so improbable That is just the question Hadley Cantril then a young social psychologist set out to answer Originally published in 1940 *The Invasion from Mars* remains a classic The broadcast provided a unique real life opportunity to explore why the relatively new medium of radio could have such an effect Using a mix of research methods Cantril shows that the impact of the broadcast had less to do with what went out over the air than with the standards of judgment people did or did not use in evaluating what they were hearing This book is of continuing value to those interested in communications and mass behavior One of the most fascinating illuminating and provocative social documents that have been brought to public attention for some time *New York Times Book Review* April 28 1940 The dramatic account brings into sharp focus those factors in the situation and from the individuals conducive to critical appraisal or contagious panic behavior Muzafer Sherif 1966 Hadley Cantril 1906 1969 was chairman of the Institute for International Social Research Earlier he founded the Office of Public Opinion Research and was Stuart Professor of Psychology at Princeton University He was author of nineteen books and monitored public opinion for the executive branch during World War II Albert H Cantril son of Hadley Cantril is an independent public opinion analyst Among his books are *Reading Mixed Signals Ambivalence in American Public Opinion about Government* with Susan Davis Cantril He also worked on the White House staff during the Johnson administration and later served in the Bureaus of East Asian and Pacific Affairs and Public Affairs of the Department of State *The Invasion from Mars* Hadley Cantril,1940 *The Invasion from Mars* Hadley Cantril,2017-11-13 On Halloween night 1938 Orson Welles broadcast a radio adaptation of the H G Wells fantasy *The War of the Worlds* What listeners heard sounded so realistic that at least a million were frightened by word that strange creatures from Mars had landed in central New Jersey and were unleashing a deadly assault Several thousand were so terrified they ran into the streets drove away in their cars or called the police for information about how to escape Why did so many panic when the circumstances reported were so improbable That is just the question Hadley Cantril then a young social psychologist set out to answer Originally published in 1940 *The Invasion from Mars* remains a classic The broadcast provided a unique real life opportunity to explore why the relatively new medium of radio could have such an effect Using a mix of research methods Cantril shows that the impact of the broadcast had less to do with what went out over the air than with the standards of judgment people did or did not use in evaluating what they were hearing This book is of continuing value to those interested in communications and mass behavior **The Invasion from Mars** Hadley Cantril,1966 **The Invasion**

He also possesses a unique independence and love of battle. But after the debacle of the Avatari invasion, he and his brethren have been exiled to the far reaches of the galaxy where the U.A. intended to use them as targets for live fire training exercises. Unfortunately for the Unified Authority, the clones they created and trained to fight have founded their own empire. Now Harris will unleash his rage against the might of the U.A. fleet, leading an army with everything to fight for and one thing to die for: Revenge.

Originally from Canada, Norma Cole is a revered writer and visual artist who has authored and translated over thirty books and chapbooks. Though highly esteemed internationally in both visual art and poetry circles, Cole's association with the New College of California and her influence on artists and poets has been overlooked by scholars. In *That Tongue Be Time*, Dale M. Smith seeks to remedy this oversight by bringing together sixteen noted scholars, editors, and poets to examine Cole's poetry, translations, and visual art in order to place her within the larger scholarly conversation about contemporary poetry and poetics. The book also includes a number of black and white reproductions of Cole's art and a contextual introduction by Smith. *That Tongue Be Time* provides a groundbreaking look at Norma Cole's lasting influence on multiple generations of poets, visual artists, and scholars and should be on the shelf of anyone interested in contemporary poetry.
