## **The Magic Of Becoming Successful:**

*The Magic of Becoming Successful* Harry Newton, 1981      *Becoming Successful (Harvesting Your Success)* Gaddiel R. Ackah, 2021-07-15 Conclusion When moments pass in our lives and we realize that our lives mismatch the life we imagined in our past its better we change our current choices decisions and dreams so that we can enjoy better life in future because everything you are doing now reflects your life in the future We reap what we sow Successful life is never a mere hoping and wishing but it s about active doing active determination and active becoming by sowing meaningful big dreams and investments today to get meaningful life tomorrow Becoming successful is not limited to age location or education It is only limited to I won t Success depends on principles and positive use of your brain The human brain including yours are the storehouse of all the magic we need to heal all the wounds of unsuccessful lives in our world Just change your altitude and take first step to begin something now and you will enjoy success as J K Rowling said We do not need magic to transform our world We carry all of the powers we need inside ourselves already It s never too late too young or too old to begin planning your future from now and get started all over by dreaming newer goals and possibilities today for a better future Officer Ackah using practical examples prompts readers that the great technological and infrastructural advancements and positions in the United States and elsewhere did not magically fall from the sky but they were created by the positive application of the minds of ordinary people like you This book helps you to change your altitudes thinking and get started to create unimaginable successes advancements and positions in our world to place you on top and you will become the topic of remembrance Officer Ackah speaking from personal experiences of victory and success from both the civilian and military points has provided the positive passionate practical and possible principles to arouse your appetite for creating unbelievable successes to change your life exceptionally and to effect inimitably the transformation of our world Gaddiel R Ackah is encouraging readers in finding freedom in their lives to overcome the three mistakes that block successful living fear to identify one s purposes in life ignorant of how powerful their brain can work to change things and the misunderstanding of creating desirable successes He prompts that you are not living to tiptoe and die but to achieve your dreams by your positive and courageous daily choices and investments When life is not okay but you are struggling in life this book is for you to reexamine and change your goal job title and social status 2 2      *With Magic to Job Success* Magus Herbst, 2021-01-26 What is Magic Is it real Is it good or evil Or is it just a misunderstood ancient language on that can help you in every aspect of your life especially in the employment world Stripping aside superstition and revealing the bare truth behind this most ancient of languages Author Magus Herbst a Wizard of remarkable knowledge reveals the many ways that Magic can and will help you and how you can use it to find Final Job Success      **The Rules of Success** Karsten Drath, 2018-08-06 This book is about the rules of long term professional success The international study on which this book is based suggests that success is above all one thing the quest for a combination of happiness and satisfaction coupled with economic independence However the data

also suggest that the definition of success varies significantly from person to person And furthermore it seems like success is not an objective quality but at least partly it results from a process of comparison with a peer group which means in turn that the selection of your peer group is crucial for your perceived level of success in life The author argues that in fact certain success factors do exist and that they are fewer in number than one might think But above all if we look thoroughly at the lives of truly successful people it soon becomes apparent that success primarily has to do with overcoming setbacks failure and crisis This ability to effectively process adversity is also known as resilience Because of its criticality for success this concept is discussed in greater depth using the FiRE model Factors improving Resilience Effectiveness as a structure This concept has been developed by the author through many years of research It differs from existing models due to its holistic approach including analysing different disciplines of science such as biology medicine brain research epigenetics sociology psycho neuro immunology etc
